DEVELOPMENTS IN BANDIT ROUND-UP EXPECTED SOON

What is expected to lead to startling developments in the round-up of bandits which has occupied the sheriff of this county and the San Francisco police and detective forces for the past two weeks was the finding this week of a woman murdered and sewed up in a sheet near the road in the vicinity of Salada Beach in the northern end of the county.

The find was made by Pat Morrisey, a rancher, Saturday evening. He while driving along the road noticed something white down in the gulley and going down to investigate found it to be a sheet in which the horribly mutilated body of a woman had been concealed.

Investigation by Sheriff McGovern, Constble A. S. Landini and San Francisco detectives disclosed the fact that the woman was a well-known member of the San Francisco underworld, who went by the name of Mona Moore. Her real name was found to be Mrs. Evelyn Gerber.

Further investigation disclosed the fact that the dead woman had been an intimate of "Buddy" Cardini, a notorious character of the San Francisco underworld, who is known to his followers as the "Argentino." It was found that she had at one time followed Cardini to Los Angeles, where he had beaten her almost to death and had left her unconscious. The fact that Cardini has disappeared and that the woman was brutally beaten and bruised before she was finally killed by a blow on the head, has lead to the suspision that the Argentino is responsible for the murder. He is now being sought by the police.

Eugenio Rafelli, arrested last week as an accomplice of the gang which attempted the robbery of the Martini store at Colma, and who has been recognized by Martini as the man who fired the shot which has confined him to the hospital since that time, is suspected of being implicated in the present murder. Detectives have grilled Rafelli, but to date he has not spoken a word. He is reported to have said less than ten words since being brought to the jail two weeks ago, and maintains an air of sullen insolance.

The other four members of the Rafelli gang are also being investigated for complicity with the present case. The four are William Avenino, Joseph LaFrance, Frank Costello and William Raleigh. These are members of a well organized gang which according to Sheriff McGovern is responsible for crimes of every sort in this and neighboring counties. It is thought that Cardini is a member of the same outfit, and that it was because the woman, Mona Moore had let slip some secret of the underhanded plans of the organization that she was murdered. The same gang is known to have engaged in hijacking, dope smuggling, running aliens across the Mexican border, and have confessed to a score of more of robberies in five of the bay counties.

In San Francisco the attention of the police is being centered upon three negroes who were arrested in conection with the murder. The three are known to have been with the woman a short time before her murder. One of the three, Warren George, is said to have been intimate with the woman, and had been called by her earlier in the evening from the apartment of Marie Howard at 1848 Buchanan street, where she was in an intoxicated condition.

Further investigation by the San Francisco detectives alicited from Herman Porter and Gladys Field, also colored, that George had tried to have the woman lodged at a house on Eddy street, but that she had been refused admittance.

In the meantime the connection of Cardini with the woman has not been overlooked and his arrest is expected momentarily. The connection of the murder with the gang arrested for the attempted killing of Martini appears more probable because of the sullen silence of Rafelli. Other arrests in connection with this affair are also expected shortily.

CRUELTY CHARGED IN DIVORCE SUIT

Charging cruelty, Mrs. Cecile Manseau filed suit here Wednesday asking a divorce from Ross Manseau with custody of two minor children. Manseau applied objectionable epithets to her and treated her with physical violence, the wife's complaint says. The couple married in Sacramento in 1914 and separated last month, it is alleged.

BIG NEW PUMPER FOR LOCAL FIRE DEPARTMENT

Redwood City's fire department is now possessed of the largest pumping engine between San Francisco and San Jose. The latest addition to the present efficient equipment arrived this week when the 1000-gallon Seagrave pumper ordered several months ago by the board of trustees was rolled into place at the fire house.

The plans of the department are to have a branch fire house built on the west side of the highway for the protection of the western section of the town. When this is done one of the two pumpers will be placed in this house. The department is now possessed of one 1000-gallon pumper, one 750-gallon pumper and a hose truck as well as a large chemical extinguisher on wheels to be hauled behind any of the other esuipment in case of necessity.

—o0o—

LOCAL KIWANIANS TO MEET BURLINGAME -SAN MATEO CLUB

The fact that they were made the possessors of the small end of a 6 to 7 score when they met the team of the Burlingame-San Mateo Kiwanis club recently on the baseball diamond, has not daunted the well-known group of baseballers who form the Redwood City Kiwanis team. This fearless band will endeavor to regain their prestige as bat wielders on July 13 when they will play the same team on the local field. To insure a proper regaining of prestige, the local team will pick their own umpire this time, a very significant fact.

In the last game many of the members of the team had never played a game before, which accounted for the defeat. Now, with all members having at least one game to their credit, nothing short of professional style is expected. It is confidently expected that the 13th will be unlucky for some one, unfortunately at this writing neither team will agree as to which will be unlucky.

ASSESSOR'S REPORT SHOWS MARKED GAIN

Showing a gain of more than a million and a half in assessed valuation in this county, the report of Assessor Flynn was filed Tuesday with the board of supervisors. This report shows that the increase in valuation for the city of Redwood City to be about $200,000. A total valuation of $45,757,610 is shown.

The report of Assessor Flynn, showed the following valuations for the city and townships of the county:

Cities	
South San Francisco	$2,336,g25
Lawndale	542,215
Daly City	1,207,515
San Bruno	1,032,610
Hillsborough	5,398,020
Burlingame	4,814,470
San Mateo	4,786,410
San Carlos	715,175
Atherton	2,349,100
Redwood City	2,728,225
Total values of citites	$25,910,265
Townships	
First Township	5,160,525
Second Township	3,138,525
Third Township	6,502,040
Fourth Township	1,824,875
Fifth Township	1,069,480
Total val. townships	$17,695,445
Total val. of county	$43,605,710
Operative roll	2,150,300
Grand total	$45,757,010

WELL-KNOWN JURIST IN CONGRESSIONAL RACE

Friends of Percy O'Connor, candidate for congress were in town yesterday in the interest of his campaign. O'Connor will be remembered as the judge from San Jose who has given many spirited talks on Americanism and citizenship before the American Legion and the Exchange Club here. He is an active member of both organizations.

CITY BRIEFS

Mr. and Mrs. Frank P. Ryan of Cassia street left this week for Phoenix, Arionza, where they will visit for a while with relatives. They will later go to Bridgeport, Connecticut. They will remain away for about six months.

Paul Knapp, who was injured several weeks ago in an automobile accident, returned to his home in this city this week. He has been confined to the Community hospital since the time of the wreck.

A. H. Donnelly, who suffered a stroke on the boat while enroute to New York, via the Panama Canal, has been brought home by his wife and son, . M. Donnelley. He arrived home yesterday.

Word this week from Mr. and Mrs. Frank Osborn, who left last week by auto for a visit in Idaho, states that they had a very good trip, that the roads were good, but that they are missing the cool refreshing bay breeze. Before returning home the Osborns will visit the Yellowstone National Park.

Miss Reta Osborn of this city and Mrs. Preston and George Hulbert of San Francisco spent the holidays at Monte Rio on the Russian river.

Mr. and Mrs. P. E. Brand and daughter, Martha, spent the week end as the guests of Mr. and Mrs. Harry Potts at the latter's summer home at Capitola.

Mr. and Mrs. W. A. Crowell and Miss Alice Crowe are spending the week at Camp Curry in Yosemite valley.

Mr. and Mrs. A. Prevost of Arch street were among those who enjoyed the holidays at the Big Basin

Mr. and Mrs. Perry Downs spent the week end at Mt. Hermon in the Santa Cruz mountains.

Miss Gertrude Geary returned Tuesday from a trip to Yosemite valley.

Mr. and Mrs. Reuben Bomberg of this city enjoyed a visit over the week end from Mrs. Bomberg's mother, Mrs. Linderman of San Francisco.

Mr and Mrs. Wilbur Doxsee spent the holidays camping in the Big Basin.

George Dunn, editor of the Halfmoon Bay Review, was a business visitors in this city Tuesday, and attended the meeting of the biard of supervisors.

Miss Bretta Bliomquist, daughter of Mrs. Ruby Bloomquist of this city, is visiting her mother. Miss Bloomquist resides in Los Angeles.

Napa.

Miss Clara Shelley was a visitor in San Francisco yesterday.

James V. Swift is spending a month enjoying the beauties of Santa Cruz.

Dr. and Mrs. N. C. Cummings and children and Miss Cleone Cummings enjoyed the week end at their summer cabin near La Hinda.

Louis Perkins, who has traveled throughout the world and made a study of Masonry in foreign countries, gave an interesting talk on that subject before Redwood City Lodge No. 168 F. & A. M., Thursday evening. Mr. Perkins' son is consul general to China.

Little Addison Medefind is home after an enjoyable vacation spent at Monterey, with his aunt and uncle, Mr. and Mrs. Robert Place.

Doctor and Mrs. G. D. Marvin entertained twenty-one friends at their home on Ashley avenue over the week end. Among those present were Captain and Mrs. Thomas Diggs. Mr. Diggs is the captain of the vessel on which Dr. Marvin is the physician. Dr. Marvin and Captain Diggs left on their ship for Honolulu on Wednesday.

Mr. and Mrs. Harry Johnson were called to Chico Tuesday by the serious illness of Mrs. Johnson's uncle, N. Hansen, a prominent asd wealthy reident of that city. Mr. Johnhon is the auditor of the West Coast Life Insurance Company.

A big delegation from Redwood Parlor N. S. G. W. attended South San Francisco Parlor, San Francisco last Wednesday evening to pay a fraternal visit. Among those present were Budd McKay, A. S. Ligouri, Edward Randolph, C. Junker. Roy W. Cloud, grand historian, delivered a very interesting address to the members on the history and development of California.

Mr. and Mrs. L. B. Winiger, Mrs. Hamil and Kenneth Sanderson are spending a few weeks at the Winiger summer home in La Honda canyon. Mr. and Mrs. Winiger were hosts to many of their Redwood City friends over the 4th

Mr. and Mrs. John Hall have returned to their home on Pine street after a couple of weeks spent in Monterey. They were accompanied by Mrs. Hall's mother, Mrs. Baldwin, who has returned to her home in San Francisco.

Rev. A. H. Clark and family spent the week in Big Basin and Santa Cruz, returning home Friday.

Frank K. Towne and family spent the holidays at their summer home in La Honda Canyon.

Mrs. Harry Clayton, deputy in the office of County Recorder T. C. Rice, spent the holidays in Reno, Nevada.

Mr. and Mrs. Philip Brand will leave next week for a vacation to be spent in the northern part of the state. They exepect to visit Sonoma, Mendocino, Lake and Napa counties before returning to Redwood City.

HARPER TO WITHDRAW FROM RACE; RUMORED

It was rumored yesterday that John Harper, one of the candidates for sheriff, was about to withdraw from the contest. He has been for some time the chief of police of Burlingame and it is said the board of trustees of that city are about to raise his salary as an induement for him to remain on the job. The rumor could not be confirmed. The persistency of the rumor would indicate that ther is something in it.

Should Mr. Harper withdraw this would leave the field to Sheriff T. C. McGovern and F. P. Roach, constable of the Third township. Both are native sons of the county, have resided here all their lives and both have friends. With Harper out of the race, the contest between the two native sons would be decided at the primary.

FUNERAL SERVICES HELD FOR WORLD WAR VETERAN

Funeral services were held Wednesday from the parlors of Layng and Tinney for John Berolo, a veteran of the World war, who passed away Saturday at the Letterman hospital in San Francisco. The deceased was a resident of this city and was cennected with the Poppy Bakery in Burlingame. He is survived by his wife, Mrs. Mary Berolo and one daughter.

Interment was in Holy Cross cemetery in Menlo Park, and was proceeded by mass in the Mt. Carmel Catholic church.

—o0o—

HALFMOON BAY CELEBRATION IS GREAT SUCCESS

Sponsored by the members of the Volunteer Fire Company, the big three-day celebration of the Fourth of July in Halfmoon Bay was a great success, with thousands of visitors flocking into the coast town from all parts of the bay region.

The celebration was featured by gay decorations, brass bands, parades, dances and free barbecues.

SEWARD WHITEHEAD MARRIED SUNDAY

At a pretty wedding at the Hotel Whitcomb in San Francisco Sunday, Seward Whitehead of this city was married to Miss Edith Guiberson of Corcoran. The ceremony was performed by Rev. R. J. Currie of this city in the presence of the intimate family of the two young people.

Mrs. Whitehead is a talented young woman and a graduate of Mills College. The groom is the son of Mr. and Mrs. Earl Whitehead of this city. He is a graduate of Stanford University and is connected with the Fish and Game Commission. The young people will make their home in San Diego, where Mr. Whitehead is now stationed.

—o0o—

ODD FELLOWS INSTALL OFFICERS WEDNESDAY

Officers for the coming term were installed Wednesday evening by Bay View Lodge I. O. O. F. The installation was performed by District Deputy William Keller and his staff. Those installed were as follows:

Roy Smith, past noble grand; Harry Hansen, noble grand; R. Palmer, vice grand; Clayton W. Schimpf, recording secretary; Ralph Talmadge, financial secretary; George Hopkins, treasurer; Al Russell, right supporter to noble grand; Perry Downs, left supporter to noble grand; J. Ryan, chaplain; J. E. Wolfe, right scene supporter; Alvin C. Brown, left scene supporter; E. M. Borke, right supporter to vice grand; Claude Sheets, left supporter to vice grand; J. M. Robb, inside guardian, and Stanley E. Marcus, outside guardian.

—o0o—

Miss Pearl Beer, who graduated from the San Jose Teachers' College recently, has been offered a position as teacher in a school near Los Angeles, and has accepted. She will begin teaching there on Monday.

SEEK FORMATION PUBLIC UTILITY DISTRICT

Asking for the formation of a public utility district in that part of the county known as East Palo Alto, a petition was placed on file with the board of supervisors Tuesday, signed by a large number of residents of that district. The petitioners were represented by attorney Joe Gordon of the firm of Kirkbride & Gordon of San Mateo.

It is proposed to form a district bounded by Menalto avenue, Bay road, Pulgas avenue and a portion of the line of the Rancho de las Pulgas. This district would be able to care for sewers, lights, water and other public utilities, without the formation of seperate districts to take care of each utility.

The district proposed overlaps about half of that district which has already petitioned the board for the formation of a lighting district, to be known as the Ravenswood lighting district. Both petitions have been set for hearing on July 19, at which time the board will have to settle the knotty question of which district shall have preference.

Mrs. Hazel Drew and R. P. Miller, circulators of the Palo Alto petition were present at the meeting Tuesday and testified as to the genuineness of the signatures.

—o0o—

PIONEER OF COUNTY DIES IN BELMONT

A stroke of paralysis last week from which she never recovered, resulted Sunday in the death of Mrs. Walter Emmett of Belmont, a pioneer resident of this county, and one of the best known women in this section. She passed away at the family home in Belmont, where she has lived for more than 44 years.

Mrs. Emmett was a native of Mayfield and was 67 years of age. Her father, John Deasy, was one of the pioneer ranchers of Mayfield. When a young woman she married Walter Emmett, a young merchant of Belmont, and since that time that place has been their home. Mr. Emmett was for many years trustee of the Sequoia Union High School distrist, and is one of the best known residents of this section.

Surviving Mrs. Emmett are her husband, a son, Walter Emmett, Jr., and a daughter, Mrs. Laura E. Callen.

Funeral services were held Wednesday at the late home of the deceased, under the direction of the James Crowe Co., of this city. Interment was in Cypress Lawn cemetery.

—o0o0o—

NO BRIDGE NORTH OF HUNTER'S POINT

The navy department of the government has issued an edict against the construction of bridges across the San Francisco bay north of Hunter's Point. It is believed the war department will join with the navy in keeping the bay clear of bridges so that in case of war the government would not be handicapped. The Dumbarton bridge will be the only one to span the bay which means that it'll be "Moonlight and Roses" for those having stock in the concern.

FORMER MUSIC SUPERVISOR MARRIED IN OAKLAND

Miss K. Gertrude Irwin and Elmer E. Brownell were united in marriage at Oakland last Saturday. Miss Irwin during 1923 and 1924 was the supervisor of music for San Mateo county under Roy W. Cloud when he was the county superintendent of schools. Mr. Brownell is the city superintendent of schools of Gilroy and is ine of the best known educators of California. The bride is an unusually pretty and charming young woman.

—o0o—

COUNTY TO GET CROSSING FOR DUMBARTON ROAD

Assistant District Attorney Ed Scott Monday told the board of supervisors that the application made to the Southern Pacific for a crossing over the tracks of that company for the road to connect with the Dumbarton bridge would be granted. The railroad company only requires that the county maintain the crossing and install an automatic flagman at the crossing. The crossing is on an extension of the present Willow road, near Menlo Park.

—o0o—

Mr. and Mrs. William Thomas are enjoying a visit from the former's brother, Harry Thomas, of

FRIENDS MORN PASSING OF POET, AUTHOR E. UPTON

The peninsula friends of Charles E. Upton, the poet, author and pedagogue are mourning his death. He succumbed to a long illness on Tuesday at the home of his brother, near Placerville.

"Down Wild Goose Canyon" was one of his best works and it has been read with interest by the young folks of the country.. Like all poets, Upton was a peculiar character, with numerous idiosyncracies. He was an able man, highly educated and a man of ideals.

Some 12 years ago he was the principal of the San Gregorio grammar school. Under the tall trees of that isolated place he found inspiration, doing his best work beneath their cooling shade.

His uncle by marriage, Martin Luther Ralston, used to say by way of sarcasm that Upton wrote spring poetry in the fall. Be that as it may, his fall poetry was meritorious.

Upton boarded with Mr. and Mrs. Ralston, who lived near the school. They had a very charming and pretty daughter, Ora A. Ralston, who attended the school. The poet-school master was deeply in love with the pretty girl and so one bright day in May, the author eloped with his pupil. On returning the young couple received the parental blessing and all was well ever after.

Mr. Upton is survived by his widow and four charming children, the oldest of whom is ten years of age.

—o0o—

PROF. SHEPHERD MAKES REPORT ON MOSQUITO

The Three Cities Mosquito Abatement District, the Pulgas Mosquito district and Matadero district some time ago employed Professor David Shepherd of the division of entomology and bionomics of Stanford University, to make a survey of the three districts to ascertain the cause of so many mosquitoes on the peninsula this season. The professor has made an exhaustive report showing the cause of the prevalence of the pesky creature here this year. Mr. Shepherd says that across the bay near Mount Eden there is no abatement district and there the mosquito or dorsalis breed undisturbed and during the prevailing east winds large clouds of the insects are blown across the waters of the bay to the peninsula. The only way to prevent this is to have an abatement district established across the bay. In closing his report Mr. Shepherd pays the following compliment to the superintendents:

"If definite information is to be had of the effectiveness of control measures in the three abatement districts, a survey must be made of all territory on both sides of the bay over a much longer period of time than that covered by this survey, particular attention being given to effectiveness of control during the early spring months.

"It is the writer's judgment that the superintendents of the three mosquito abatement districts should be commended for their interest and intelligent efforts to secure a maximum of freedom from mosquitoes breeding in their own as well as adjoining districts, and that efforts should be made to protect them as far as possible from criticism and responsibility for infestations coming from sources other than their own. Every effort possible should be made to secure co-operation, through the establishment of additional mosquito aabtement districts, in the effort to free the bay distrirt from breeding places of this pest."

SIMULTANEOUS FIRES CALL OUT DEPARTMENT

The advantage of having two men on duty at the fire house was amply demonstrated Wednesday afternoon when two calls were sent in from different parts of the city at the same time. The department answered a call from the Five Points district which proved to be a grass fire. While still busy with this alarm, a second alarm was sounded from a box on Main street.

The second alarm proved to be a fire in Victor Michel's blacksmith shop on the corner of Main and Chestnut streets. This was answered by the chemical truck which stopped the progress of the flames and held the fire in check until the pumper engine returned from Five Points and finished the work of extinguishing the flames. As soon as the pumper arrived on the scene, the other truck was sent back to the fire house to be ready for a third alarm should another be turned in at that time.

Michel's shop was damaged to the extent of several hundred dollars, but was saved from being an entire loss by the prompt action of the department.

—o0o—

WELL KNOWN COUPLE ARE MARRIED HERE

The Methodist church was the scene of a pretty wedding last Wednesday, when Miss Genevere Anderson, girls' athletic director of the Sequoia Union High School, became the bride of Alfred Robertson, well known young man of this city. The wedding was witnessed by the family of the groom. The ceremony was performed by Rev. A. H. Clark, pastor of the local church.

The bride is the daughter of Mr. and Mrs. Anderson of Denver, Colorado. She has been connected with the faculty of the high school for the past three years and in that time has made many friends in this city. She is a talented athlete and has studied physical education in this country and abroad.

Mr. Robertson is the elder son of Mr. and Mrs. Frank Robertson of the Woodside road. He is a graduate of the Sequoia High School, and sinec leaving that institution has been engaged in farming. At school he was one of the leading athletes.

—o0o—

DOYLE ESTATE PAPERS FILED

An estate valued in excess of $10,000 was left by the late Mrs. S. Elizabeth Doyle of Burlingame. it was revealed Monday, when her will was filed for probate in the Superior court.

The entire estate is left to a son, Frank Moss McGraw, of 1430 Palm drive, Burlingame, according to the terms of the will. Mrs. Doyle died June 28, 1926.

Youthful Inventors

The average age at which twenty of the greatest inventions were produced is thirty-two. Wireless telegraphy, the self-binding reaper, and the vacuum air brake were largely developed in the inventors' twenty-second year.

Use Wisdom in Reproof

A man takes contradiction and advice much more easily than people think, only he will not bear it when violently given, even though it be well founded.—Richter.

RADIO

Three-Tube Receiver, Square Wound Toroid Coils, Two Stages of Radio Frequency and Detector. Can Be Enlarged to Five-Tube Set.

By CARLTON E. BUTLER

(Member American Institute of Electrical Engineers and Institute of Radio Engineers.)

Styles in radio receivers have changed with the changing conditions of the broadcasting field. A three-tube regenerative set with two stages of radio frequency amplification was capable of giving satisfactory reception a few years ago, but today, with the worst congestion of the ether lanes ever experienced in the history of radio, and the increasing use of high-power broadcasting stations, selectivity requirements demand the use of radio-frequency amplifying circuits.

A three-tube circuit today should use some form of tuned radio-frequency amplification that successfully copes with 1926 conditions and furnishes an inexpensive set that later on may be enlarged into a five-tube receiver by the addition of two stages of audio-frequency amplification.

Leave Room on Panel.

In the diagram shown here, however, just the three-tube circuit is illustrated as it makes a complete set in itself. Room should be left on the panel and in the cabinet for the other stages at a later date. For this reason a 24 or 26-inch panel should be used, with a cabinet and baseboard large enough to allow for this future expansion. The three-tube set will bring in just as much distance and possess all of the desirable qualities of the high-priced five-tube sets on the market, excepting volume, which is obtained when audio amplification is added.

Little apparatus is needed to construct this set, and with reasonable care an excellent receiver can be had for very little outlay of time and money. To construct the set you will need the following list of apparatus:

1 square wound toroid coil, type T1.

2 square wound toroid coils, type T2, indicated as T2 and T3.

3 straight-line frequency variable condensers, .00035 mfd. capacity. Indicated as C1, C2, and C3.

1 .00025 mfd. fixed grid condenser and 2 megohm grid leak 25-ohm rheostats.

1 phone jack.

3 tube sockets.

Binding posts, wire, screws, etc.

The 25-ohm rheostats are to be used with UV 201-A or C 301-A type of tubes. If the 199 type are to be used, then 40-ohm rheostats should be substituted. For the WD 11 or WD 12 type of tube, 6-ohm rheostats throughout will be correct. Both radio-frequency tubes are operated from one rheostat if desired, but it is usually best to have a separate control for the detector tube.

Use Double Circuit Jack.

The detector tube is using the same voltage of "B" battery as the radio-frequency tubes. This will only be possible as long as all three tubes are of the same type and not more than 45 volts are to be used. If a higher voltage of "B" battery is desired, then the detector jack should be supplied from the 45-volt tap. If a soft tube is to be used, reduce the voltage to 22½ volts, or less.

A single-circuit jack is shown in the detector stage. If at a later date it is practically certain that amplification is to be added, it is best to use a double-circuit jack in this position to avoid the need for changing the present circuit.

Two antenna terminals are provided on the first toroid coil. These are to adapt the set to a long or short antenna. It might be well to bring these two terminals out to binding posts on the rear of the cabinet so that the antenna can be quickly changed over from one to the other as conditions require more selective tuning, or greater volume is desired.

The position of the apparatus in laying out the receiver baseboard is not critical. The coils may be placed side by side without intercoupling or causing the receiver to become unstable, due to their confined magnetic fields.

How to Avoid Burning Out Your Radio Tubes

"An ounce of prevention is worth a pound of cure," applies nowhere more forcefully than in the burning out of radio tubes. A simple measure to eliminate, as far as practicable one of the wastes of radio is proposed by the manager of a prominent radio manufacturing company. An ordinary 40-watt lamp is all that is needed to conduct the operation, resulting often in saving of time and money, and at other times "making assurance doubly sure."

"Did you ever hear the story, 'I've burned out five tubes?'" Mr. Manager asked in discussing the matter with a group of dealers. "Now there is no occasion for this happening. It, of course, may be possible because of an internal short in one of the tubes between the grid or plate and the filament; or possibly through carelessness in installing the receiver and connecting the battery wires.

"The wise dealer, however, or the one installing the set, always connects up every receiver and uses an ordinary 40-watt, 110-volt lamp, for instance the kind you ordinarily have in the store or find in the home, in series with the plus 90 'B' battery lead when the receiver is installed for the first time.

"With this precaution, it is impossible to burn out tubes, for even if there is a defect of any kind in either the receiver or connections, the tube filaments will only glow or light up very dimly with the 40-watt lamp connected in the plus 90 'B' battery leads, and then only when the filament control switch is still on its 'off' position.

"If the tubes do light with the switch in the 'off' position, it is a direct indication of trouble, and the receiver should be immediately disconnected and the fault found and eliminated.

"Always use that 'safety valve' 40-watt lamp in series with "B" battery for it assures absolute protection to the tubes. When the set is completely hooked up and working properly, you can safely remove the lamp and still know that the set will function properly, and that there will be no possible chance of burning out tubes under normal operating conditions."

Amount of Power That Your Aerial Picks Up

It has been computed that the amount of power picked up by the ordinary receiving aerial is about one-billionth of a fly-power. Think of it! If your receiver picked up as much power as that possessed by a fly, you would be receiving a billion times more energy than you are now receiving. It seems almost impossible to comprehend this fact. Here is another illustration that may help you to understand how very small is the power actually picked up by your antenna. If the power radiated by the average transmitting station were collected and used to heat an ordinary electric toaster it would not even glow at a dull red heat and certainly would not burn your bread. Yet this small amount of energy is radiating in all directions and spreads over a circle with a diameter of 16,000 to 20,000 miles, for signals have been picked up hundreds of times at points 8,000 to 10,000 miles distant from the transmitting station.

Just imagine every foot of space in in a circle with a radius of 10,000 miles being flooded with part of the energy that originally was only enough to heat an electric toaster, then you begin to get an idea of the extremely small amount of energy that reaches your particular aerial.

From this it will be realized that to detect the extremely faint signals from distant stations your receiver must be very sensitive and efficient.

Use good insulators and solder all connections in the aerial for best results.

Speakers Are Not Only Cause of Distortion

There is a tendency among fans, and experts too, for that matter, to blame all distortion on the loud speaker. The evidences of distortion—the "blasting," "rattling" and "tinniness"—are such as to suggest the reproducing mechanism as the source of the difficulty to any but the more experienced ear. As a matter of fact, the loud speaker is rarely responsible for more than 25 per cent of the strain in the average case of distortion. The amplifier itself generally assumes 50 per cent of the blame, while the tubes are culpable for the remaining 25 per cent.

In only a comparatively few instances will the installation of a new and better speaker eliminate distortion. On the contrary, in many cases a superior talker outputs a more distorted signal than a poor one. A poor loud speaker has a tendency to counteract the distortions occasioned by an equally inefficient amplifier, while a first-class reproducer, by virtue of its excellence, gives out in sound an exact counterpart of what you put into it electrically. Because of this "straight-line characteristic" many users of cone loud speakers—which are fundamentally superior to the horn type—have been disappointed in the quality of their new speakers.

If, on changing from a horn speaker to a good cone, you find the quality unimproved, you have definitely demonstrated the inefficiency of your amplifier. However, do not be deceived by the generally lowered tone of reproduction. To the ear accustomed to the loss of the low frequencies in a horn type speaker, the sudden inclusion of these heretofore missing notes may temporarily seem unnatural.—New York Herald-Tribune.

Test for Battery Wires

The positive and negative sides of a battery can be determined by cutting a raw potato in half. Let the two wires of the battery terminals touch the potato, but keep them a quarter of an inch apart. The surface of the potato will turn green near the positive wire. The negative will remain white.

Good Printing
THE kind of printing that pays dividends is the kind you should have. Pale, muddy, poorly arranged printed matter is worse than none. The quality of your business is often judged by the quality of your stationery — inferior printing gives an impression of cheapness that is hard to overcome, while good printing carries with it a desirable suggestion of quality.
We produce only *Quality Printing*. Whether you want an inexpensive handbill or a letterhead in colors, if you order it from us you will be sure of getting good work. We have the equipment and the "know how" that enables us to get out really good printing—printing that interests people with the good taste of its users. That is the only kind of printing that

NEWS REVIEW OF CURRENT EVENTS

President Reveals Prosperity of Country but Says No More Tax Reduction.

By EDWARD W. PICKARD

WE ALL knew the United States was prosperous, but the figures given out last week by President Coolidge in his budget address to the semi-annual meeting of the government's business organization were surprising. A surplus for the fiscal year ending June 30 was anticipated, but the President announced that it would be, in round numbers, $390,000,000—much greater than was estimated in December or March after the passage of the revised revenue act. Yet more surprising, there is in prospect a surplus of about $185,000,000 for the fiscal year 1927, and of $20,000,000 for the fiscal year 1928. Up to this time Mr. Coolidge and the treasury and budget officials had been telling the people that the government would not more than break even in 1927 and that the next year would reveal a deficit.

The President said that on June 30 the gross public debt would be approximately $19,680,000,000, representing a reduction during the fiscal year of $836,193,887, which is about $100,000,000 more reduction than was made during the previous fiscal year.

Notwithstanding the prosperous condition shown by the figures submitted, the President did not relax from his stand for continual economy, and he warned the public that there was no likelihood of further tax reduction at the present time. He asserted that a falling off in business activity might easily wipe out the prospective 1927 surplus, and as for 1928, he told the department heads and bureau chiefs in his audience "frankly that the outlook today is not encouraging," and that the possible surplus of $20,000,000 "is negligible and may easily be converted into a deficit."

As a new measure of economy President Coolidge proposed a reduction in pay rolls under a scheme by which $20,000,000 is to be saved during the next 12 months. The details of the plan, which were outlined by Director of the Budget H. M. Lord in an address following that of the President, call for the organization of the "2 per cent personnel club." It is not contemplated to discharge any present employees but to omit filling such number of vacancies as they occur as will result in saving at least 2 per cent of the annual salary cost.

Concerning tax reduction, the President said: "It would be unfortunate to raise hopes of further tax relief until we are sure that the state of our finances justifies it. There is no such surety today. Business was quick to anticipate the last tax reduction. It was justified in so doing. To raise such hopes at this time might be to discourage business to anticipate again, as it did in 1925, further tax reduction. This might have a detrimental effect upon the stabilization of the country under the present tax law."

AT LEAST until next session of congress the corn belt's plans for farm-relief legislation were killed when the senate defeated the McNary bill by a vote of 39 to 45. The house already had rejected the measure, which would provide for price stabilization. The Middle West had counted on the support of the cotton section, but only six southern senators voted for the bill.

NEVER before has the world seen such or so great a religious demonstration as was the twenty-eighth international Eucharistic congress in Chicago. Its importance and impressiveness were recognized by men of all creeds and of no creed, and the hope was expressed generally that it would stimulate a revival of spirituality in a world that has become too material. Under the leadership of church officials, from cardinals down, nearly a million devout Catholics gathered in the city by the lake and for three days participated in gigantic outdoor masses and other ceremonies in Soldiers' field and in huge meetings in the churches and other buildings. On Thursday came the culminating ceremony, the procession of the Holy Sacrament, the displaying of the Consecrated Host by Cardinal Bonzano and the final papal blessing by the pope's legate—all this at the St. Mary of the Lake seminary in the suburb of Mundelein. All Wednesday night and Thursday morning the throngs made their way to Mundelein until, when the procession started, it was estimated there were 800,000 people in the little village. While 12 cardinals sat on their thrones, the procession moved for hours, displaying all the color and ceremony of the Catholic church. Archbishops and bishops, mitred abbots and monsignori, uniformed knights of various Catholic orders, the lower orders of the clergy and the hundreds of thousands of laymen made up a spectacle that may never again be seen, at least on this side of the Atlantic.

Chicago was congratulated by the visitors on the efficiency displayed in caring for the comfort and safety of the vast throng of visitors. Incidentally, it received a lesson on the effect of nonparking orders in the loop business district that, if taken advantage of, would go far toward solving the city's serious traffic congestion problem.

SENATOR REED of Missouri has been having the time of his life since he succeeded in getting Wayne B. Wheeler before the senate committee investigating the Pennsylvania and other primaries. The wet Missourian was determined to bring out the facts concerning the political activities of the Anti-Saloon league, and up to the time of writing he had succeeded in making public a lot of interesting information. For instance, it was learned from Mr. Wheeler that from 1920 to 1925, inclusive, the National Anti-Saloon league, exclusive of the 48 state branches, raised and expended nearly $3,500,000. At the height of the fight to put through the eighteenth amendment the expenditure averaged $2,500,000 a year. It transpired, however, that the financial reports submitted by Mr. Wheeler did not show expenditures by the league in campaigns for the nomination and election of dry candidates for national, state and local offices. These campaign funds were raised and expended separately by campaign committees organized by the league. The committee called for information on those funds, on the receipts and disbursements of the 48 state leagues and on the national league's receipts and expenditures prior to 1920.

Further testimony, too much to be related in detail, was heard concerning the Pennsylvania Republican primary and the sources of campaign funds. Even the state W. C. T. U. became involved.

IF THE new French ministry which Briand has patched together stands up, Joseph Caillaux, former exile, will be the virtual boss of the country. After both Briand and Herriot had failed to get together a cabinet, Briand wanted to give up entirely, but President Doumergue insisted, so the veteran formed a ministry which he hoped would draw support from the left, center and right factions in parliament. Caillaux consented to take the finance portfolio, the most important at this time, only after being guaranteed "dictatorial powers" permitting him to have his own way in financial matters without question by any other minister. Also he was made vice premier, a position that has always been conferred on the minister of justice. Briand will continue as premier and foreign minister and will represent France in the League of Nations, and in the latter capacity he is to have a free hand. Other well-known men in the cabinet are Durand, Laval, Leygues, Vincent, Dourafour and General Guillaumat, who is minister of war. At the demand of Caillaux, Raymond Poincare and all Clemenceau adherents were kept out of the ministry.

Caillaux warns the nation that he intends to apply heroic remedies for the present distressing situation of France, and the nationalist newspapers say he is preparing a coup d'etat in which the army will support him. It is understood he will reopen the debt negotiations with the United States and try to have inserted in the accord the safeguard clause making French payments contingent on receipts of German reparations.

THOUGH strenuously opposed, Marshal Pilsudski is getting his own way in Poland. The parliament, after a tumultuous session, has agreed to pass out of existence, making way for one that will be entirely subservient to the dictator.

Portugal's new dictator, Gen. Gomes da Costa, is suspected of having royalist sympathies, and the European governments are watching his movements carefully, rather expecting that he will reseat Manuel on the throne. It is recalled that some two months ago the former king sent a secret circular to leading royalists in Portugal, pointing out that the parliamentary government in Portugal had broken down. He suggested that the only way to save the country, in his opinion, was through the establishment of a military dictatorship, with the restoration of the monarchy to follow.

ALTHOUGH 14,890,000 Germans voted in favor of the expropriation of the property of the former kaiser, other princely rulers and their families, which property is valued at $600,000,000, the proposition was beaten in the national referendum. Under the law, 19,500,000 votes were required to order the confiscation, and the great majority of the voters stayed away from the polls, holding that the private property of the princes should be returned to them. This was the view of President von Hindenburg and the government. More potent still in guiding the people was the belief that the confiscation would be the first step in the Bolshevizing of Germany, to be followed by the taking of the property of all the bourgeois if the Communists had their way—which was the prediction of Leon Trotzky, the Russian Bolshevik leader.

For eight years the German governments have been dickering with the princes concerning their revenues, and Chancellor Marx warned the leaders of the various parties that he would present a compromise settlement that they must accept or he would dissolve the reichstag. His plan provides for only partial restoration of the royal properties. The Socialists said they would agree if the princes were granted not more than 15 per cent of their prewar incomes.

LIEUTENANT COMMANDER RICHARD BYRD and Floyd Bennett, the American navy men who were the first to fly across the top of the world and drop the flag at the North pole, have returned to the United States and were given an enthusiastic welcome. After landing at New York, where they were acclaimed by cheering thousands, the bold aviators went to Washington. There President Coolidge, cabinet members, the Supreme court, congress, army and navy officers and diplomats united in doing them honor. To Byrd was presented the rarely given Hubbard medal of the National Geographic society, and to Bennett a medal especially designed for the occasion. Next day the flyers went to Virginia, Byrd's native state and where his brother is governor. In Richmond they were the guests of honor at a huge reception.

LOS ANGELES' latest mystery, the disappearance on May 18 of Mrs. Aimee Semple McPherson, well-known evangelist, has been partly solved, for she was found last week in the Mexican town of Agua Prieta by an American and taken to a hospital in Douglas, Ariz. She told a long story of having been kidnaped by two men and a woman, all Americans, and taken into Mexico where she was held for ransom. After being moved about from place to place, she said, she escaped when her captors were absent and wandered all night on the desert. Mexican and American posses searching for the abductors have not been able to find the house from which the woman says she escaped, and the sheriff at Douglas says her clothing and shoes show no evidence of having come through the rough wastes in which she asserts she wandered all night. The district attorney at Los Angeles started an investigation of the case, including peculiar circumstances of the reward for the evangelist's return, which was offered and later withdrawn. So, at the time of writing, the mystery is only partly solved.

...eed Banker to Give Life to Welfare Work

...Philadelphia.—Free, after serving ...little more than three years in the ...tern Pennsylvania prison for killing three persons with his automobile, ...ry G. Brock, Philadelphia banker, ...resting at the home of friends ...paratory to taking up prison welfare work, to which he said the remainder of his life would be devoted. It was partly due to his work among the convicts and his purpose to continue this work that he owes his freedom.

Sentenced in April, 1923, to serve six to ten years after pleading to second degree murder, he was pardoned by Governor Pinchot on recommendation of the state board of pardons.

The board took official cognizance of "his manly acceptance of the consequences of his act, the work he has done for prisoners and his purpose to continue this work." Brock was a model prisoner and did much prison welfare work at his own expense.

Brock, admittedly befuddled with ale, was driving his big motor car at a rapid pace when he struck two women and a man who were alighting from a trolley car on March 2, 1923. He had no recollection, he said afterward, at his trial, of what had occurred. He refused to make a defense, saying he could do nothing that would restore the lives he had taken and that he wanted to submit to the law. He was thirty-seven years old when sentenced to prison.

New Golf Handicap Quite Interesting

One of the most unusual handicap proposals in the history of golf has been presented to the Riverside Golf club (Portland, Ore.) handicap committee by Arthur K. Trenholm, chairman of that committee.

According to the plan, players would start out on even terms but the winner of the first hole would give his opponent one stroke on the second hole. If the winner of the first hole repeats on the second one, then he grants his opponent two strokes on the third hole.

In Trenholm's opinion this method of ascertaining handicaps would make for better golf and more interesting matches.

LACROSSE HURTS BASEBALL GAME

Its Inexpensiveness One Reason for Increase.

That lacrosse is rapidly forging to the front as a leading sport in college circles and in a number of cases has already displaced baseball, is a statement made by Ralph G. Leonard, assistant professor of physical education at Pennsylvania State college and coach of the Nittany lacrosse team. No other sport has made such rapid strides among the colleges in recent years, according to Leonard, who recently completed a survey of the sport for the annual meeting of the National Collegiate Athletic association.

He points out that almost thirty colleges have taken up the sport during the past two years and are now placing it on an intercollegiate basis. Among the institutions that he mentions are Dartmouth, Brown, Williams, Union, Lafayette, Carnegie Tech, University of Pittsburgh, University of Virginia, University of Tennessee and Georgia Tech. During the more than forty years since lacrosse was first established as a college sport in 1881, it is the only sport that has not become professionalized in America, points out Leonard.

Among the reasons advanced by the Penn State mentor for the growing popularity of the game are the following: The rules have been improved to the point where the game is clean and scientific. Because of its bodily contact, lacrosse appeals to the American youth. It builds character, one of the main purposes of physical education and athletics. The game is inexpensive, being probably 50 per cent less costly than baseball or track. And, finally, although requiring a high degree of skill to play, the sport is easy to teach.

Visits of a combined Oxford-Cambridge team to this country three years ago and a return visit to England of a Syracuse team one year later have placed the game on an international basis, says Leonard. The Oxford-Cambridge team will play a schedule of ten games in this country next spring as a furtherance of this international relationship.

Cubs Get Stephenson

Riggs Stephenson (shown in photograph) hard-hitting outfielder and Shortstop Schreiber of Indianapolis have been traded to the Chicago Cubs for Maurice Shannon and Outfielder Munson. Stephenson was one of the leading hitters in the American association.

Briton Claims Money Is Help to Us in Sports

"Although athletic victories cannot be purchased like 'old masters,' money does certainly give the Americans a good start in sport." Lord Wodehouse, international pololst and sportsman, thus summed up American ascendancy in sport.

"I do not mean to say that it is their wealth which gives them their prowess in polo or any other sport," said Lord Wodehouse. "There is no getting away from the fact that they are keen, and seem to have a knack of giving themselves as wholeheartedly to any special line of sport as they do to the organization of a factory.

"I mean that by reason of their great wealth Americans are able to buy the best implements and the best tuition.

"Another advantage that the Americans have, in my opinion, is the fact that they are able to play all the year round in one part of the country or another."

Tigers Go to Boston

Boston Red Sox seem to have a penchant for grabbing Detroit players. On this season's Beantown payroll are Howard Ehmke, Emory Rigney, Fred Haney and Ira Flagstead. All joined the Fohl brigade from Detroit. Flagstead and Ehmke have been with the Red Sox several seasons. Rigney and Haney, though, are 1926 arrivals. Each member of the quartet is playing good ball, too. Another former Tyger, Bobby Veach, also made the Detroit-to-Boston leap.

Most Valuable Player in League

Senator Frank B. Willis is shown here presenting to Roger Peckinpaugh of the Nationals a diploma stamping him as the most valuable player in the American league in 1925. Peck's teammates are shown gathered about him during the ceremonies held at the Griffith stadium.

Boy Golfer Lauded

Ronald MacKenzie, the boy golfer of Washington, D. C., received great praise from the English newspapers for his expert playing in the British amateur golf championship at Muirfield, when he defeated W. J. Guild of Murray field, and won 3 and 2. MacKenzie made the first nine holes in 33, which included an eagle and three birdies.

BASEBALL SQUIBS

The Blue Ridge league is employing the double umpire system this year.

* * *

Harry Albers, star second baseman on the St. Xavier college team, with the Cincinnati Reds.

* * *

The current season is the best the National league ever has seen, says President John Heydler.

* * *

Pete Donohue, of the Cincinnati Reds, has pitched twenty-one consecutive victories over the Phillies.

* * *

Clyde Sukeforth, catcher from the Cincinnati Nationals, has been bought by the Minneapolis Association club.

* * *

In a recent game between Pittsburgh and Brooklyn, Umpire Jim Sweeney was struck six times by foul tips.

* * *

Babe Ruth is definitely coming back. There was a picture of him in the paper the other day signing a bushel of baseballs.

* * *

McNeely has apparently won himself a permanent place in the Washington outfield this year through his consistent hitting.

* * *

Seventy-five per cent of a ball team's success depends upon its pitching, according to Joe McGinnity, the "Iron Man of Baseball."

* * *

Another current double-play combination that lacks some of the haunting music of the older trios is Bluege to S. Harris to J. Harris.

* * *

In no sport but baseball do athletic heroes hold over for more than a few years. Boxing, football and swimming stars have a brief reign.

* * *

A cynic is one who preserves half a dozen copies of the baseball expert's pre-season prophecy and mails them to him one by one during the year.

* * *

After twenty-two years of service, "Doc" Crandall is still puzzling batters in the Pacific Coast league and hopes to win his usual twenty games for the Los Angeles club.

* * *

Unlike most baseball catchers, "Mickey" O'Neil, Brooklyn backstop, has the hands and fingers of a clerical worker. They are as perfect as when he first started in the National league six years ago.

* * *

Syracuse has purchased Howard Burkett, son of Jess Burkett, once famous hitter, from the Greenville club of the South Atlantic league. He has been playing shortstop and has turned out to be a good hitter, it is said.

* * *

"A great hitter," is the way Manager Hendricks of the Cincinnati Reds expressed himself when Walter Christensen, last year with St. Paul, stepped up to the plate. Christensen led the American association in base stealing in 1925.

Pop Bottles Barred at the Newark Park

There will be no more pop bottles at the Newark (N. J.) park as the result of a "glassware shower" directed at Umpire Magerkurth following a recent game. Incensed at Magerkurth's decision, fans hurled bottles at the umpire as he fled from the park at the finish. One of the bottles struck James B. Reilley, one of the stockholders, on the head, severely injuring him. President Davids immediately issued an order that no more pop in bottles would be sold among the fans and paper cups have been substituted.

Volk Ends Career

When the last man was out in the ninth inning of the Mines-Colorado university game at Golden, Colo., the curtain was rung down on the athletic career of one of the greatest conference athletes of all times, "Rut" Volk. Fifteen letters were won by the scrapping Miner, all of them in the most strenuous of sports.

Current Wit and Humor

ADVERTISING'S FAILURES

She had urged him to study the correspondence course at home and he had—just like the advertisements say. At last his salary was raised $50 a month, also like the advertisements say.

"Neil," he cried, "I owe it all to you!"

"Well, dear," she retorted, "you won't after pay day."

Which was the point the advertisements failed to mention.

Drama

She—Well—
He—Quite.
Silence.
She—You're rather shy.
He—I haven't a cent.
More silence.
She (desperately)—Oh, dear!
He (in ecstasy)—Helen!
And so they were married.—Lehigh Burr.

NOT MADE OF MONEY

He—You act like I was made of money.

Wifey—Not at all! I act like you weren't made of money.

Note on Women

Because it's the fashion
They wear clothes so few,
If 'twas poverty made 'em
A howl would ensue.

Canned Goods

"We have been married six months, darling, and not once have you told me which of my dishes you like best."

"Canned salmon."—Tit-Bits.

She Had

Mistress—What's the matter, Mary? Have you taken something that doesn't agree with you?

New Maid—Yes'm; this job.

YOU'VE HEARD OF 'EM

"What kind of a house is that?"

"A block house, stupid!"

A Melody in Toot

He heard the toot but tried to scoot
And beat the choo-choo to it;
The poor galoot now twangs a lute,
Take heed and don't you do it.

Invitation

Her Father (fiercely)—Do you play cards for money?

The Aspirant —N-yes; b-but—

Her Father—Well, let's have a game, I'm broke.

And the Penalty

She—The Misses Blank usually sing duets, do they not?

He—Yes; they divide the responsibility.

The Modest Violet

"Personals" advertisement in a Georgia newspaper:

"I offer my services to the public as literary writer on all subjects, whether sollum or joyfull. All-soe obituarist, giving departed friends glorious welcome to the hairafter."—Collier's.

Lazy Luck

Park Keeper—Now then, hurry up! I'm going to shut the gate.

Weary Willie (sleepily)—All right, but don't slam it.

Threatened

"Have you any evidence that the defendant had previously attempted your life?"

"Positive evidence. I can bring witnesses to swear they heard him ask me to umpire a baseball game."—Chicago Phoenix.

Secretive

"Can your fiancee keep a secret?"

"I should think she can. We were engaged two of three weeks before I knew a thing about it."

What He Wanted

Sambo—Ah want some peppah, please.

Shopkeeper—What kind? Cayenne or black?

Sambo—Ah said Ah wanted some peppah—writin' peppah.

His Terms

Gushing Young Pupil—Ah, professor, if ever I make a pianist, I'll owe it all to you.

Professor—Pardon me, young lady, my terms are quarterly—in advance.

SATURDAY, JULY 10, 1926.

THIS WAY OUT

FOR years America has been regarded by foreign nations as a dumping ground for their undesirable citizens. From these nations we have received many fine, upright men and women who have come to us for greater opportunities, more civil, intellectual and religious freedom. But unfortunately we have received many who have come here to disregard our laws and institutions, and who become a menance to the very liberty which has attracted the desirable sort of immigrant.

It is this latter type that which has made necessary a concerted effort by the government to rid our shores of undesirables. Six million dollars will be used by the bureau of immigration according to present plans in a campaign to deport such aliens as have proved themselves unfit for American citizenship. These, Commissioner Hull of Immigration estimates at 100,000. Under the present plan, it is expected, to deport at least 12,000 a year.

The alien bootlegger, the breaker of our game laws, white slavers, thieves and bandits will be the first to be given a passage to their native countries, and taught that this is a land of liberty, not of license.

The public good demands that laws be enforced, and if the undesirable alien with no appreciation of our institutions, no capacity for self government and no consideration for public rights is deported it will give the judicial branch of our governments a greater chance to cope with crime among our own citizens, and will greatly reduce the cost of maintaining courts and penal institutions which are burdened with a surplus of undened with a surplus of undesirable citizens from over the sea, at the cost of the American tax payer.

America should welcome the foreigner who comes to us ready to conform to and abide by our laws, rules and regulations, work and support his family and live as a just and upright man. It should give short shift to the alien who sees in liberty, only a chance to live by rapine, lawlessness and at the expense of the law-abiding. All power to the Bureau of Immigration.

Humane Education

TRAINING children in ideals of kindness and gentleness to every living creature is an integral part of the work of the schools. The nature study of the elementary school affords many opportunities for enlisting the active interest of children in the animals and developing an appreciation of them as fellow-sharers in life. This appreciation should be accompanied by a study of the habits of various animals, their relations to mankind, our obligations to them, the services they render, and the care and protection to which they rightfully are entitled. Humane education is required in our schools under provisions of the School Law. Textbooks, pictures, songs and stories are employed in this teaching. Above all, the live interest of the children in the animals themselves is important.—Penn. School Journal.

—o—o—o—

Importance of Education

EDUCATION for all children is America's outstanding contribution to the world's progress. Universal education has made America the wealthiest and healhiest nation in the world. Through education we have become great. Other nations have built their greatness on huge armies and vast navies. America has staked her future on the informed intelligence of the individual citizen. The nation's concern for education measures its interest in its own future.

Before the Sixty-ninth Congress is a bill which proposes to create a fact-finding Department of Education with a Secretary in the President's Cabinet. This measure has the active support of more men and women who have carefully read its provisions than any other ever before Congress. Doubters become supports when they read the bill.—N. E. A. Journal.

THE SCHOOL OF LIFE

GRADUATION time has passed. Throughout the country thousands of young men and women must now elect to either enter college or start on a business career. As the ones who enter college must now step down from the lofty position of high school senior to that of lowly freshmen whose ignorance and incompetence will be duly impressed on them by the mighty sophomores, so will those others who, for one reason or another, do not enter college find practically all the same thing true, for they will be freshmen in the University of Life, where honesty character and hard work are the principles which lead to success. And, if they are to graduate with honors from this university, it must be because of the training, the foundation, which they received in the public schools.—The Torch.

Do You Know That

California has not a single Congressman on the Ways and Menas Committee, before which Tariff and Tax legislation comes in the House of Representatives, and that California will be without representation on any committee having control of these subjects of legislation unless Senator Shortridge is returned to the Senate?

Do You Know That

practically all the farming industries of California depend upon the protection afforded by the Fordney-McCumber Tariff Bill, which was supported by Senator Shortridge, and which cannot be amended without passing the Senate Finance Committee?

Do You Know That

California has one hundred and nineteen (119) farm, orchard and mining products protected by tariff Are you interested? If you want to make sure of a protective tariff by these products, support Shortridge.

Do You Know That

The American Economist, America's greatest and foremost defender of the Tariff, said in commenting upon Senator Shortridge's appointment to the Finance Committee:

"California is to be congratulated because she will will be represented on the Senate's most important committee by a high protectionist, whose serenity is never disturbed and who always seems to get what he goes after."

D. R. STAFFORD NAMED ON BOARD OF TRUSTEES

At the regular meeting of the Redwood City board of trustees Monday evening, the resignation of A. E. Monteith, who has been in ill health for several months, and unable to attend to his duties as a member of the board, was received and accepted. In accepting the resignation of Trustee Monteith, all members of the board expressed their regret that circumstances have made his resignation necessary.

In selecting a man to take the place of Trustee Monteith, the four remaining members of the board agreed unanimously to ask D. R. Stafford to accept the position for the unexpired term. Stafford was present and was called to the seat at the board, which he accepted after thanking the board for selecting him. The oath of office was administered by City Attorney Mansfield, and Trustee Stafford entered actively into the business of the board, making many valuable suggestions and comments.

COUNTY MILK ORDINANCE PASSED WITH RESERVATION

The ordinance prepared at the instigation of the dairymen of the county and presented to the board of supervisors at their meeting of June 21, was passed last Monday with one change as suggested at the first reading by District Attorney Swart. The section omitted would have made it a criminal act for a milk dealer to sell milk in any bottle but his own. This, said the district attorney, was making use of criminal proceedure to protect property rights, a function of the cival code. This opinion was also taken by the board, and the dairymen finially consented to the change.

The ordinance as passed prohibits the sale in this county of pasteuried milk not pasteurized within the county. It sets a minimum score of 3.6 for milk and makes important regulations concerning bacteria content and dairying proceedure.

The matter was handled for the dairymen by County Milk Inspector J. J. Garland. A number of the dairymen were also present

CERTIFICATE OF INDIVIDUAL DOING BUSINESS UNDER A FICTITIOUS NAME.

No. 348.

Know All Men by These Presents:

That I, the undersigned, Emma Aileen Laugherty do hereby certify:

That my full name is Emma Allen Laughery, and that my place of residence is at 224 7th Avenue, Apt. No. 4 in the City and County of San Mateo, California;

LAS PULGAS COMMITTEE COMPLETES WORK AND RESIGNS

The committee which was appointed by the board of supervisors several months ago to investigate the possibility of widening and extending the present Alameda de las Pulgas to form a second highway parallel to the county road was present at the meeting of the supervisors last Monday and presented its final report to the board. The committee consisted of H. C. Tuchsen, Fred Drake and Asa Hull, who were present Monday and C .H. Holt and Walter Emmett, who were not present. Holt was chairman of the committee.

Tuchsen acted as spokesman for the committee and reviewed to the board the work which the committee has been able to accomplish. A preliminary survey has been made and a map prepared. Rights of way have been offered for the greater part of the way, where it is necessary to build new roads. The committee has been waiting for a decision of the supreme court on the constitutionality of the act of the legislature, making it possible for the county to construct roads through an incorporated city. The decision has been rendered upholding the act. The work of the committee was therefore complete and further action is now in the hands of the supervisors. The committee, therefore, asked that it be discharged.

The board complied with the request of the committee, and in discharging the members extended the thanks of the board for the splendid work which the committee had been able to accomplish. No action was taken on the road at that time but the matter will be given consideration by the board at a meeting in the near future.

E. B. HINMAN ADDRESSES LOCAL EXCHANGE CLUB

The value of the chamber of commerce to a community was the subject of an address delivered Tuesday evening by E. B. Hinman before the Redwood City Exchange club. Hinman, who is president of the Redwood City Chamber of Commerce, and who has had much experience in civic associations, showed the important place which the chamber of commerce should hold in any community, a place which the service clubs, the lodges or churches cannot fill, since they are organized along different lines. He put special emphasis upon the power of advertising, especially in the work of the chamber of commerce.

Bill Hogan gave an interesting talk on his business, that of a plumber, and showed that while the plumber may have to go back for his tools, he is nevertheless, an important factor in any community.

The chairman of the evening was Stanley Netherton, who spoke briefly on the value of the Exchangite, the official publication of the club, and read some extracts from that publication.

REV. C. E. KENNEDY TELLS OF CONVENTION

An interesting report on the Kiwanis International convention which clised recently at Montreal, Canada, was given Wednesday at the noon time meeting of the Redwood City Kiwanis Club. The speaker was Rev. C. E. Kennedy, who went to the convention as the delegate of the local club. Norman MacKenzie was the chairman of the meeting.

—oOo—

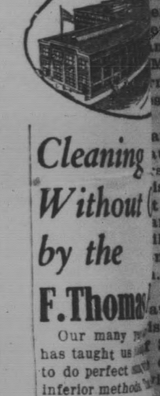

DANCE POSTPONED

The "Fall of the Bastile" dance scheduled by the La Honda Canyon folks for the evening of July 17th has been postponed until July 24. This postponment was made necessary by the fact that the Catholic ladies of the Canyon had made all the arrangements for their annual fair and dance for the date previously announced. The Canyon folks did not want to run in opposition to the annual event of the Catholic ladies, so yielded the date.

The "French Fourth" dance will be held in the town hall at La Honda and several gate prizes will be distributed. A good orchestra has been engaged for the evening and those attending will be assured of a good time. The 'French Fourth' is an age old institution in the Canyon and many ild timers as well as the rising generation will be in attendance.

Mr. and Mrs. Edmund Moore entertained Mr. and Mrs. Peter Fiel and son and Mr. and Mrs. Herman Jensen and daughter of San Francisco over the holidays.

Mr. and Mrs. Wilson and daughter, Maude of Washington, spent the holidays with Miss S. M. Pinkham. Mrs. Wilson will be remem-

bered as Miss Mary Cummins.

trance to Woodside, with a view of the mountain range and the full sweep of the bay from San Francisco to San Jose, as well.

Mrs. Alanson Weeks has returned to her home here after a few days spent in San Francisco.

These are busy days for Louis Bellmont, the blacksmith. So many of our residents have adopted horse-back riding as their favored sport that the blacksmith shop, for a long time neglected, because of the automobile, has again become a rallying point. And whether it be a heavy plow horse from the farm or a high-stepping prize from the show ring, Bellmont can fit the shoes.

Oscar Blackington and family returned on Tuesday from a two weeks' trip into the forests of Humboldt county.

—o0o—

East Palo Alto

The Grange meeting Tuesday evening was followed by a dancing party for the membership. A four-piece orchestra furnished the music. The business session arranged for an evening picnic next Tuesday evening at Searsville lake for the members and families, for a culling demonstration of poultry on the 15th and for ascertaining the population of the community.

Mrs. Olive Mueller is building a garage on her property on Olive street and E. M. Barnby is building one on his lot on Scofield avenue.

Mr. and Mrs. E. M. Barnby have sold their home place on Woodland avenue and Mr. and Mrs. C. H. Steere of North Palo Alto will be the new residents in the home J. E. Ellis of Palo Alto has purchased a lot on Scofield avenue and Miss Victoria King has also purchased a lot on the same street. The sales were made by John Huss

Two grass fires in the past week have called out the fire fighting equipment and the people, and while no damage of great importance resulted, buildings were endangered and much care needs to be taken to protect the homes by having the dangerous places burned off at a time when there is no strong wind.

Mr. and Mrs. Thomas Duke former East Palo Alto residents, are visiting for a week at the home of Mr. and Mrs. Albert Hansen on their way to San Diego from Richmond, where they have been visiting relatives.

T. R. Martens is enjoying vacation at Lake Almanor, accompanied by his son and daughter-in-law of San Francisco, for a two weeks' rest.

Mr. and Mrs. Gridley R. Fogg of Skowhegan, Maine, are visiting for a couple of weeks with Mr. and Mrs. O. D. Wells. The two families motored to Santa Cruz Tuesday.

Mr. and Mrs. A. R. Gurr are in Seabright for a month or more at their cottage.

Mrs. M. A. Medlin of Newman is visiting her daughter, Mrs Warren Huffman.

Mrs. John Witt of Ross is a guest for the week at the home of Mr. and Mrs. Clarence Amberg and George Ehram of San Francisco is passing his school vacation at their home. Guests over the 4th at their home also were Mrs. Chas. Ash, a daughter of A. Amberg, Mrs. Sol Gruman and the Misses Polly and Annie Ehrman and their niece, Clara Ehrman, all of San Francisco.

Mrs. A. O. Anderson passed the week end in San Francisco with her daughter.

Mrs. B. J. Rose and two daughters, Frances and Miriam of Berkeley, are visiting at the home of Mrs. and Mrs. Charles Cairns.

Wm. O'Keefe, a brother of Mrs. Robert Miller, and whose home is in Richmond, is convelescing at the Miller home after some weeks in the Marine hospital in San Francisco.

Maxine Huffman is visiting relatives in Tracy for a few weeks.

MOVIES

"ROLLING HOME" WILL SHOW HERE

The popular stage success by John Hunter Booth, "Rolling Home," which entertained theater-goers all over the country in its legitimate stage production, has been made for the movies. Reginald Denny is the star of Universal's picturization of the play, which comes to the Sequoia Thetre next Monday and Tuesday, July 12 and 13. William A. Seiter, who has made Denny's last three farce comedy features, directed "Rolling Home." The cast includes Marion Nixon, Ben Hendricks, Jr., E. J. Ratcliffe, Margaret Seddon, Anton Vaverka, George Nicholls and others.

—ooo—

ALLAN DWAN'S "PADLOCKED" COMING TO SEQUOIA THEATRE

"Padlocked" is a picturization of the widely read Cosmopolitan Magazine story by Rex Beach. It was adapted by Becky Gardiner and James Shelley Hamilton, and features an imposing cast, headed by Lois Moran, Louise Dresser and Noah Beery. Florence Turner, Helen Jerome Eddy, Allan Simpson, Charles Lane and Douglas Fairbanks, Jr., are among the important supporting players.

The central character in the story is a lovely, high-spirited girl, who rebels against her father's narrow minded attitude and efforts to stifle her natural ambitions, and runs away from home to seek a career on Broadway. As a cabaret dancer, she attracts the attention of the millionaire society set and becomes involved in a love triangle. An unexpected crisis develops when her father demands that she return home and the subsequent events are charged with suspense and emotional appeal.

The entire production has been lavishly set, brightly and fittingly costumed, and under Mr. Dwan's direction very colorfully and smoothly produced.

BURLINGAME SCHOOL BONDS SOLD BY SUPERVISORS

Bids were opened Monday by the board of supervisors for the sale of the $50,000 issue of bonds by the Burlingame school district. A large number of bids were received, the highest of which was that of the American Sureties Co. for $2415.00. This bid was accepted. The next bid was only 75 cents lower. The bids received were as follows:

RESOLUTION OF INTENTION NO. 2

Resolved by the Sanitary Board of Belmont Sanitary District of San Mateo County, California, that it is the intention of said Board to order the following work to be made done and improvement to be made in said Belmont Sanitary District, To-wit:

SECTION 1. That the hereinafter mentioned or named streets, avenues, roads, public ways and rights of way of and in said Belmont Sanitary District be improved by the construction in, along and upon the same of vitrified saltglazed iron stone pipe sanitary sewers and red burnt brick manholes capped with cast iron frames covers and dust pans, and vitrified salt glazed iron stone pipe lampholes, capped with cast iron frames and covers, of the sizes, dimensions, to the grades and in the particular locations and positions as shown by the plans, profiles and specifications hereinafter mentioned; also that four (4) inch vitrified salt glazed iron stone pipe sewer wyes be constructed in and placed along all of the lines of the above described sanitary sewers to the number of one (1) such wye for each separate lot, piece or parcel of land shown on said plans and to be served by such proposed sanitary sewers. All of said sewers and work shall be constructed at the places, positions, and locations and of the dimensions and in the manner and to the grades shown and described upon and in the plans profiles and specifications therefor adopted by the Sanitary Board of said Belmont Sanitary District on the 15th day of June, 1926, which said plans and specifications are hereby particularly referred to and made a part of this resolution of intention.

SECTION 2. Said streets, avenues, roads, public ways and rights of way, or portions thereof, so to be improved are all situated within the exterior boundaries of the assessment district hereinafter mentioned and described and are more particularly described as follows, to-wit:

(1). COUNTY ROAD leading from Belmont to Crystal Springs, commonly known as Belmont to Crystal Springs Road from an existing manhole at Crystal Springs Road and Notre Dame Avenue to the southeasterly extension of the southwesterly line of Block 68 as said Block is shown on the hereinafter mentioned "Map of Subdivision No. 4 Belmont Country Club Properties."

(2). ACADEMY AVENUE from County Road leading from Belmont to Crystal Springs, to Villa Avenue;

(3). VILLA AVENUE from the County Road leading from Belmont to Crystal Springs to Academy Avenue;

(4). ALAMEDA DE LAS PULGAS from the County Road leading from Belmont to Crystal Springs to a point 156.5 feet northeasterly from the northeasterly line of Block 59 as said Block 59 is shown on the hereinafter mentioned "Map of Subdivision No. 4, Belmont Country Club Properties;"

(5). COVINGTON ROAD from the herein proposed sewer in the Alameda de las Pulgas to a point 640 feet northerly therefrom;

(6). PULLMAN AVENUE from the Alameda de las Pulgas to the County Road leading from Belmont to Crystal Springs;

(7). ARTHUR AVENUE from the Alameda de las Pulgas to Coronet Boulevard;

(8). EWELL ROAD from Pullman Avenue to Coronet Boulevard;

(9). CORONET BOULEVARD from Casabone Avenue to the County Road, leading from Belmont to Crystal Springs;

(10). PRINDLE ROAD from Cipriani Boulevard to Coronet Boulevard;

(11). PONCE AVENUE from Prindle Road to Cipriani Boulevard;

(12). CASABONA AVENUE from Ponce Avenue to Newlands Avenue;

(13). CIPRIANI BOULEVARD from Prindle Road to Newlands Avenue;

(14). CARMELITA AVENUE from Cipriani Boulevard to Read Avenue;

(15). BUENA VISTA AVENUE from the herein proposed sewer in Cipriani Boulevard to a point 220 feet southerly therefrom;

(16). NEWLANDS AVENUE from Cipriani Boulevard to Lincoln Avenue;

(17). WOOSTER AVENUE from an existing manhole in Cipriani Boulevard to a point 500 feet northwesterly therefrom;

(18). The 10 foot path between Block 52 and Block 53, as said Blocks are shown on the hereinafter mentioned "Map of Subdivision No. 2 A Belmont Country Club Properties" and "Map of Subdivision No. 5 Belmont Country Club Properties," respectively;

(1) Also from a point 5 ft. westerly from the east line of the Alexander Sanitarium 6.917 Acre Tract to a point 330 ft. easterly therefrom.

(19). The 10 foot path between Block 60 and Block 61 and between Block 67 and Block 68 as said Blocks are shown on the hereinafter mentioned "Map of Subdivision No. 4, Belmont Country Club Properties";

(20). The way and rights of ways in, and upon and along which such improvements are to be made are those certain rights of way belonging to the Belmont Sanitary District over lots 2 and 9, Block 60 and lots 14 and 15 Block 68 as said lots and block are shown on the hereinafter mentioned "Map of Subdivision No. 4 Belmont Country Club Properties;"

ALSO in upon and along those certain strips of land designated "5 ft. sewer reserve" through Blocks 42, and 45 as said blocks are shown on the hereinafter mentioned "Map of Subdivision No. 2, Belmont Country Club Properties;

ALSO in, upon and along those certain strips of land designated "5 ft. sewer reserve" through Blocks 52 and shown on the hereinafter mentioned "Map of Subdivision No. 2A, Belmont Country Club Properties;"

ALSO in, upon and along those certain strips of land designated "5 ft. sewer reserve" and "7 ft. sewer reserve" through Blocks 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67 and 68, as said blocks are shown on the hereinafter mentioned "Map of Subdivision No. 4, Belmont Country Club Properties;"

ALSO in, upon and along that certain strip of land designated at "5 ft. sewer reserve" through Block 48, as said block is shown on the hereinafter mentioned "Map of Subdivision No. 3, Belmont Country Club Properties;"

The above mentioned maps are of record in the office of the County Recorder of San Mateo County as follows;

"Map of Subdivision No. 2, Belmont Country Club Properties recorded Feb. 16, 1925, in Volume 12 of Maps at pages 13 to 16 inclusive.

"Map of subdivision No. 2A, Belmont Country Club Properties recorded June 16, 1925, in Volume 12 of Maps at pages 38 to 40 inclusive.

"Map of Subdivision No. 3, Belmont Country Club Properties" recorded in Volume 12 of Maps at pages 18 to 20 inclusive.

Map of Subdivision No. 4, Belmont Country Club Properties" recorded in Volume 12 of Maps at pages 43 to 49 inclusive.

Said descriptions are to be deemed to include all terminations, intersections and opposite terminations.

SECTION 3. There is excepted from said work above mentioned any duplication of the same class of work due to duplication of description, it being the intention to describe only one improvement of the same class at one place.

SECTION 4. Said Board does hereby adopt and establish as the official grades for said work the grades and elevations shown upon said plans, profiles and specifications. All such grades and elevations are referred to the District official base and datum established by said Sanitary Board October 20th, 1925. All of the said work shall be done to the lines and to the grades as all are more particularly shown upon the plans and specifications therefor which grades are hereby adopted as the grades to which the herein proposed work shall be done and all of said work shall be done in accordance with the plans and specifications heretofore adopted for doing said work and now on file in the office of the Secretary of the Sanitary Board, which plans and specifications are entitled "Plans and Specifications for the Construction of Sewers, Belmont Sanitary District, Belmont, California," which plans and specifications were heretofore adopted by the said Board of Trustees on the 15th day of June, 1926, as the official plans and specifications for said work and to which plans and specifications reference is hereby made for a further description of said work and for the location and extent of the work to be done hereunder and for a particular description of the boundaries of the district herein mentioned.

SECTION 5. And Whereas said contemplated work and improvement in the opinion of the Sanitary Board of said Sanitary District is of more than local or ordinary public benefit, said Board hereby makes the expenses of said work and improvement chargeable upon the district which said district sai Board hereby declares to be the district benefited by said work and improvement and to be assessed to pay the costs and expenses thereof which said district is bounded and particularly described as follows:

BOUNDARY OF DISTRICT

Beginning at a point where the easterly line of Alameda de las Pulgas as is intersected by the production southeasterly of the southwesterly line of Block 31 "Map of Subdivision No. 2 of Belmont Country Club Properties," filed for record in Volume 12 of Maps at pages 13 to 16, San Mateo County Records; running thence from said point of beginning southerly along the easterly line of Alameda de las Pulgas to the northeasterly line of Covington Road; thence southeasterly along the northeasterly line of Covington Road to its intersection with the southwesterly production of the northwesterly line of lots 7, 9, and 11, "Map of the Mezes Rancho near Belmont;" thence northeasterly along the said production and along the northwesterly line of lots 11, 9, 7, and 5 of said Mezes Rancho and their production northeasterly to the northeasterly line of Notre Dame Avenue; thence southeastrly along 'th northeasterly line of Notre Dame Avenue to the northwesterly line of the County Road leading from Belmont to Crystal Springs; thence northeasterly along the northwesterly line of said road to its intersection with the southwesterly line of the Morton R. Gibbons 2.03 Acre Tract produced northeasterly; thence southeasterly along said production and along said southwesterly line to a point distant 300 feet at right angles southeasterly from the southeasterly line of the County Road from Belmont to Crystal Springs; thence southwesterly parallel to and distant 300 feet southeasterly from said road to the southwesterly line of the Foothills Development Company's 24.74 acre tract; thence northwesterly along said southwesterly line to the southeasterly line of said Belmont to Crystal Springs Road; thence southwesterly along the southeasterly line of said Belmont to Crystal Springs Road to the intersection with the southwesterly line of Block 68 "Map of Subdivision No. 4, Belmont Country Club Properties," filed for record in Volume 12 of Maps at pages 43 to 49, San Mateo County Records; produced southeasterly; thence northwesterly along said production and along the southwesterly line of said Block 68 to its intersection with the northeasterly line of the above mentioned Belmont to Crystal Springs Road; thence Northwesterly along the northeasterly line of said road to the westerly line of Cipriani Boulevard; thence northerly along the westerly line of Cipriani Boulevard to the northwesterly line of Buena Vista Avenue; thence southwesterly along the northwesterly line of Buena Vista Avenue to the line dividing lots 4 and 5, Block 73 "Map of Subdivision No. 5 Belmont Country Club Properties" filed for record in Volume 12 of Maps at page 67 to 71 inclusive, San Mateo County Records; thence northwesterly along the northeasterly line of lots 5 and 34 in said Block 73 to the southeasterly line of Lincoln Avenue; thence northeasterly to a point where the northerly line of Lincoln Avenue is intersected by the line dividing lots 8 and 9, Block 72 in the above mentioned "Map of Subdivision No. 5, Belmont Country Club Properties; thence northerly and northeasterly along the northwesterly boundary line between lots 8, 7, 6, 5, 4, in Block 72, to the southeasterly line of De Koven Avenue; thence northeasterly along the southeasterly line of De Koven Avenue to the southwesterly line of Newlands Avenue; thence northwesterly in a straight line to the intersection of the line dividing lots 15 and 16, Block 70 of said map with the northwesterly line of De Koven Avenue; thence northwesterly along the line dividing lots 15 and 16 in said Block 70 to the southeasterly line of lot 14, Block 70; thence southwesterly along the southeasterly line of said lot 14 to the most southerly corner thereof; thence northwesterly along the southwesterly line of lots 14, 13, 12, 11, and 10 in said Block 70 to the southwesterly line of Monserat Avenue; thence southwesterly to the intersection of the line dividing lots 1 and 3, Block 69 of said map with the easterly line of said Monserat Avenue; thence westerly along the southerly line of lots 1 and 2 in said Block 69 to the easterly line of lot 39 in said Block 69; thence southerly along the easterly line of lot 39 to the most southerly corner thereof; thence northwesterly and northerly along the median line of said block 69 to the northwesterly corner of lot 29 in said Block 69; thence easterly along the northerly line of lot 29 to the southwesterly corner of lot 28 in said Block 69; thence northwesterly along the line dividing lot 25 from lots 26, 27, 28, and its production northwesterly to the northwesterly line of Lincoln Avenue; thence northeasterly along the northwesterly line of Lincoln Avenue to the northeasterly line of Newlands Avenue; thence southeasterly along the northeasterly line of Newlands Avenue to the southeasterly line of Block 53 Map of Subdivision No. 4 Belmont Country Club Property; thence northeasterly along the southeasterly line of Block 53 and its production northeasterly to the northerly line of Wooster Avenue; thence easterly along the northerly line of Wooster Avenue and its production easterly to the easterly line of Cipriani Boulevard; thence southerly along the easterly line of Cipriani Boulevard to the northeasterly line of Newlands Avenue; thence southeasterly along the northeasterly line of Newlands Avenue to the northwesterly line of Casabona Avenue; thence northeasterly and easterly along the northerly line of Casabone Avenue to the easterly line of Coronet Boulevard; thence southerly along the easterly line of CoronetBoulevard to the most westerly corner of the above mentioned Block 31; thence southeasterly along the said southwesterly line of Block 31 and its production southeasterly to the point of beginning.

Excepting, however, from such district, any and all public streets, avenues, ways, courts, public rights of way and other public property.

SECTION 6. Notice is hereby given that serial bonds bearing interest at the rate of seven (7) per cent per annum from their date shall be issued in the manner and form provided by law to represent assessments of $25.00 and over for the cost of said work and improvement. Said bonds shall extend from their date over a period of nine (9) years from the second day of January next succeeding the 15th day of the next November following their date and an even annual proportion of the principal sum thereof shall be payable, by coupon on the second day of January every year after the fifteenth day of the next November following their date, until the whole is paid and the interest shall be payable semi-annually by coupon on the second days of January and July respectively of each year after their date at the rate aforsaid on all sums unpaid, until the whole of said principal and interest are paid. Upon such bonds dated after the fourteenth day of May of any year and on or before the fourteenth day of the following November the first interest coupon shall become due and payable on the second day of the next succeeding January and upon such bonds dated after the fourteenth day of November of any year and before or on the fourteenth day of the following May the first interest coupon of said bonds shall become due on the second day of the next succeeding July.

All of the herein proposed work shall be done and the said bonds issued pursuant to an Act of the Legislature of the State of California, designated "The Improvement Act of 1911" approved April 7, 1911, and amendments thereto.

Notice is hereby given that on Tuesday, the 20th day of July, 1926, at 7:45 p. m. at the Belmont Public School House in the Chambers of the Sanitary Board of said District, any and all pesons having objection to the herein proposed work and improvements may then and there appear before said Sanitary Board and show cause why said proposed improvements should not be carried out in accordance with this resolution.

The Secretary of the Sanitary Board shall cause this resolution of intention to be published twice in the Redwood City Times-Gazette, a weekly newspaper published and circulated in San Mateo County which said newspaper is hereby designated for that purpose by the Sanitary Board.

The Engineer of the Sanitary District shall cause to be conspicuously posted along the line of said contemplated work and improvement and in and along all of the above open streets within said district above described, and in front of all of the property liable to be assessed, notices of the passage of this resolution of intention in the time manner and form perscribed by law.

All of the herein proposed work shall be done and the said bonds issued pursuant to an Act of the Legislature of the State of California designated "The Improvement Act of 1911" approved April 7, 1911, and amendments thereto.

I hereby certify that the foregoing Resolution was duly and regularly introduced and adopted at a regular meeting of the Sanitary Board of the Belmont Sanitary District of San Mateo County, held at their regular place of meeting in the Chambers of said Sanitary Board at the Belmont Public School House in said district on Tuesday, the 15th day of June, 1926, by the following vote to-wit:

AYES: THOMAS PENNINGTON H. C. WARREN, GEO. ROUSSEL, L. HANSEN, H. C. CALDWELL.

NOES: None.

ABSENT: None.

Dated: June 15, 1926.

H. C. WARREN,
Secretary of the Board of Trustees of the Belmont Sanitary District.

First publication in Times-Gazette July 3, 1926; last publication July 10, 1926.

SUMMONS

No. 12053

Brought in Superior Court of the State of California, in and for the County of San Mateo.

JAS. T. O'KEEFE, Attorney for plaintiff, No. 71, Broadway, Redwood City, California.

THE DOXSEE COMPANY, a Corporation, Plaintiff,

vs

ALL PERSONS CLAIMING ANY INTEREST IN, OR LIEN UPON, THE REAL PROPERTY HEREIN DESCRIBED, OR ANY PART THEREOF, Defendants.

THE PEOPLE OF THE STATE OF CALIFORNIA, TO ALL PERSONS CLAIMING ANY INTEREST IN, OR LIEN UPON, THE REAL PROPERTY HEREIN DESCRIBED, OR ANY PART THEREOF, DEFENDANTS, GREETING:

YOU ARE HEREBY REQUIRED to appear and answer the complaint of THE DOXSEE COMPANY, a corporation, plaintiff herein, filed with the Clerk of the above entitled Court and County, within three (3) months after the first publication of this Summons, and to set forth what interest or lien, if any, you have in or upon that certain real property, or any part thereof, situated in the County of San Mateo, State of California, and particularly described as follows, to-wit:

PARCEL 1

LOT Numbered Eleven (11), in Block Numbered Two (2), as shown on that certain Map entitled, "Map of the Knowles Tract, San Mateo Co., Cal.", filed in the office of the County Recorder of Mateo County, May 21, 1888, in Book "A" of Original Maps, at page 42, and copied into Book 1 of Maps, at page 3. Acquired by deed from Eliza Woll dated March 30, 1926.

PARCEL 2

The Northerly Eleven (11) feet of Lot Numbered Seven (7), and the Southerly fourteen (14) feet of Lot Numbered Six (6), in Block Number Twelve (12), as shown on that certain Map entitled, "Map of the Land of Abbey Homestead Association," filed in the office of the County Recorder of San Mateo County, January 2, 1872, in Book "B" of Maps, at page 43. Acquired by deed from James T. Casey and Margaret L. Casey, his wife, dated February 15, 1926.

PARCEL 3.

A portion of Lot Numbered Five (5) in the Canada Diablo as shown on that certain Map entitled, "Map of the Mezes Ranch near Belmont, San Mateo County, Cal.", filed in the Office of the County Recorder of San Mateo County, January 10, 1889, in Book "A" of Original Maps at page 77 and copied into Book 1 of Maps at page 75, said portion being more particularly described as follows: BEGINNING at a point in the center line of a certain 40 foot road on the Easterly boundary of said Lot 5, said road being commonly known as the road to the old Mezes Homestead or Daisy Lane, said point of beginning is described as bearing from the Southwesterly corner of the Gas House Lot S. 71¼ degrees W. 1124 feet along the Northwesterly line of the County Road from Belmont to Canada Diablo and N. 18 3-4 degrees W. 496 feet along the center line of said road to the old Mezes Homestead; thence from said point of beginning along the center line of said last mentioned road N. 18 3-4 degrees W. 50 feet; thence leaving said road S. 71¼ degrees W. 348 feet to the Southwesterly boundary of said lot 5; thence along said boundary S. 18 3-4 degrees E. 50 feet; thence North 71¼ degrees E. 348 feet to the point of beginning. Acquired by deed from J. T. Meddock and Ingred A. Meddock, (his wife), dated February 5, 1926.

PARCEL 4.

BEGINNING at the point of intersection of the Old Toll Road (now known as Kings Mountain Road) leading from Tripps store to Kings, and the road known as the Summit Springs Road; thence laong the center of said Summitt Springs Road as the same is shown by the Map of partition and subdivision of all that part of the lands of Estate of Maria-Louise Soto de Greer, deceased, in the Rancho Canyada de Raymundo, said Map being on record in the Office of the County Recorder of San Mateo County, in Book "B" of Maps, at page 7; and running N. 9½ degrees W. 3.45 chains; N. 22¼ degrees W. 3.92 chains; N, 30 degrees 25 minutes W. 4.25 chains; N. 26 degrees 5 minutes W. 7.24 chains; thence leaving said Summit Road S. 73 3-4 degrees W. to the line of the lands of C. C. Morehouse, formerly the lands of Mrs. Honora King; thence running Southwesterly along said line of lands of C. C. Morehouse to the aforesaid Kings Mountain Road; thence Easterly along said last mentioned land to the point of beginning; CONTAINING an area of 20 acres, more or less. Acquired by deed from Josephine Berry, Frank D. King, Walter S. King and Mary A. Granger, dated August 29, 1925.

PARCEL 5.

The South Thirty-five (35) feet of Lot Seven (7) and the Northerly fifteen (15) feet of Lot Eight (8) in Block Numbered twenty-two (22), as shown upon a certain Map entitled, "Map of the Lands of the Abbey Homestead Association," filed in the Office of the County Recorder of San Mateo County, January 2, 1872, in Book 1 of Maps, at page 14 thereof. Acquired by deed from Benjamin Picetti, dated June 10, 1926

PARCEL 6.

COMMENCING at a point on the Southerly line of Phelps Street said point bing the intersection of Lots numbered one (1) and twelve (12) in Block four (4) as per Map hereinafter mentioned; running thence Westerly along the said line of Phelps Street ten (10) feet; thence at right angles Southerly thirty (30) feet; thence at right angles Easterly ten (10) feet; and thence at right angles Northerly thirty (30) feet to the place of beginning, and being a portion of Lot Twelve (12), in Block four (4) as shown on that certain Map entitled, "Map of the Eastern Addition of Redwood City," filed in the office of the County Recorder of San Mateo County, November 3, 1862, in Book 2 of Miscellaneous Records, at page 85 and copied into Book 1 of Maps, at page 85. Acquired by deed from Victor M. Pometta and Victoria C. Pometta, his wife, dated October 22, 1925.

PARCEL 7.

LOTS Numbered one (1) and two (2), Section Six (6); Lot one (1) of Northeast quarter; Northwest quarter of Northeast quarter; Southeast ¼ of Northeast ¼; Section seven; Lots 1 and 3; southwest quarter of Northwest quarter; southwest quarter; south half of southeast quarter; northwest quarter of southeast quarter; Lot four (4) of the Northwest quarter of the Northwest quarter of Section Eight (8); Lots one (1), two (2), three (3); Southwest quarter of Southwest quarter of Section Nine (9); Northeast quarter of Section Seventeen (17), all in Township Seven (7), south of Range Three (3) West, Mount Diablo Base and Meridian. Acquired by deed from Robert Anderson and Gracella R. Anderson, his wife, dated October 27, 1925.

PARCEL 8.

Lot Numbered twelve (12) in Block numbered three (3) and Lot Numbered twenty (20) in Block numbered four (4), as shown on that certain Map entitled, "The Seventy-five Dollar Lot Homestead Association," filed in the office of the County Recorder of San Mateo County, October 3, 1870, in Book "E" of Original Maps, at page 63, and copied into Book 1 of Maps, at page 6. Acquired by deed from Bartolomeo Freccero and Ida F. Freccero, his wife, dated September 19, 1925.

PARCEL 9.

A parcel of land fronting fifty (50) feet on Pine Street, described as:

The Southwesterly one-half (SW½) of Lot numbered nine (9) and the Northeasterly one-half (NE½) of Lot Numbered eight (8), in Block numbered forty-four (44) as shown on that certain Map entitled, "Map of the Eastern Addition of Redwood City," filed in the office of the County Recorder of San Mateo County, November 3, 1862, in Book 2 of Miscellaneous Records, at page 85, and copied into Book 1 of Maps, at page 81; Acquired by deed from Mary Burton, formerly Mary Teicheira, to The Doxsee Company, a corporation, dated May 5, 1926.

PARCEL 10.

A parcel of land fronting seventy-five (75) feet on Pine Street described as:

The Northeasterly one half of Lot numbered nine (9) and all of Lot numbered ten (10) in Block numbered forty-four (44), as shown on that certain map entitled, "Map of the Eastern Addition of Redwood City," filed in the office of the County Recorder of San Mateo County, November 3, 1862, in Book 2 of Miscellaneous Records, at page 85 and copied into Book 1 of Maps, at page 81, acquired by deed from Paul Romera, single, dated May 5, 1926.

PARCEL 11.

Lot Numbered Twenty-one (21) in Block "B" as designated on the Map entitled, "Map of Edgar Mills Tract, Menlo Park, San Mateo County," which map was filed in the office of the Recorder of San Mateo County, California, on September 14, 1887, in Volume A of Maps at page 51, Vol and a copy thereof entered in Volume 1 of Maps, at page 94, acquired by deed from Henry F. Vanhonsebrouck and Bertha Vanhonsebrouck, his wife, dated May 25, 1926.

PARCEL 12.

LOTS Thirty-three (33), Thirty-four (34) and Thirty-five (35), in Block Nineteen (19)(as designated on the Map entitled, "Map No. 1 Vista Grande, San Mateo Co., Calif." which map was filed in the office of the Recorder of County of San Mateo, State of California, on November 5, 1906, in Volume "C" of Maps, at page 35, and a copy thereof, entered in Volume 4 of Maps, at page 41. Acquired by deed from Altheus John Green and Cathern Green, also known as Mrs. A. J. Green, (his wife), dated May 28, 1926.

And you are hereby notified that, unless you so appear and answer, the plaintiff will apply to the Court for the relief demaned in the complaint, to-wit:

A judgment and decree of this Court, establishing and quieting its title in and to said parcels of said real property hereinbefore described, and determining all estates, rights, titles, interests, liens and claims of every kind and nature whatsoever in and to said real property and every parcel thereof, and declaring plaintiff to be the owner in fee simple of said parcels of said real property nd of every part thereof; and that it be decreed that no other persons have any right, title intrest or lien in and to said parcels of real property, or any part thereof;

That plaintiff recover its costs herein, and that plaintiff have such other and further relief as may be meet and proper in the pemises.

WITNESS my hand and the seal of said Court this 4th day of June, A. D. 1926.

ELIZABETH M. KNEESE, Clerk.
(SEAL)
By ANNIE BULLIVANT, Deputy Clerk.

MEMORANDUM

The first publication of this Summons was made in the "Times-Gazette," a newspaper, on the 5th day of June, 1926.

First publication June 5th; last pulication August 7th, 1926.

The WATER BEARER

By J. ALLAN DUNN

Author of "A MAN TO HIS MATE" "RIMROCK TRAIL"

CHAPTER X—Continued

—15—

His name was called. Cox's secretary had come after him.

"Your proposition, as we understand it," said Cox, "is that you should be paid one hundred thousand dollars for your project—after it has been approved by our engineers and declared practical—and that you are given due acknowledgment of yourself as originator of the project, with a position as consulting engineer during the completion of the work?"

Caleb nodded.

"That is it."

"It's a lot of money," said Marlin, apparently addressing the smoke of his cigar.

"It's a lot of water," replied Caleb good-humoredly.

"You'll turn over your invention to the company?" This was Marlin again.

"You mean the pipe junction? I'll give the company free use of it. I am applying fer patents. I shall hold those. I will allow the Crystal Springs corporation free use of it anywhere on the Pacific coast."

Marlin grunted.

"We'll agree to your terms, Warner," said Cox. "The engineer's salary will be ten thousand dollars per annum. We'll make contract with you for five years at that sum, if you wish?"

Caleb shook his head.

"For the duration of this work," he said. "I appreciate the honor but I should prefer to be foot-loose after that. Will you put the rest of your agreement in writing?"

A pair of steely eyes bored into him. They belonged to Morse of the Lumber interests.

"We are going to make it a motion, young man. That should satisfy you."

"If I can have a copy of the minutes."

Cox laughed.

"Are you a lawyer as well as a civil engineer, Warner? You shall have a copy of the minutes—certified—if you wish. You Yankees!" he ended humorously.

Marlin walked over toward Caleb who had moved to the door. He nipped Warner's elbow familiarly. "We're glad you came out here, Mr. Warner. You're the kind of man we want. We'll make a Westerner out of you in no time. Don't let the climate get you. It sometimes affects our second generations. Good-by."

Caleb went out warm in his feeling toward these men. He had won. He was the Water-Bearer, on no small scale.

He left the elevator elated, his head up, turning to the entrance, when he felt a touch on his arm. It was the stenographer, Mary Morgan.

"Mr. Warner," she said hurriedly. "I want to see you alone. It is important. And it is your business, not mine. Though I am connected with it. Will you meet me at Haight's at a quarter after five, that will be as soon as I shall have time to get there after work this afternoon. In one of the upstairs compartments. The captain will tell you which one."

He looked at her uncertainly. Haight's was the fashionable restaurant. There was nothing disreputable about the place. Still the compartments—in the afternoon especially—were generally reserved for couples that had reason for seclusion, that were accepted as intimate and not always conventional.

"You will be sorry if you don't come," she said. "It is the best place."

Her eyes challenged his seriously. They held a portent that communicated itself.

"All right, I'll be there," he said. And half regretted the determination before he reached the street.

He turned up Grant avenue towards his office. A landaulet braked at the curb. The door opened and Betty Clinton stepped out directly in front of him. Caleb took off his hat. His pulses had jumped. Then they stopped for an instant. She had cut him, deliberately, cruelly, looking at him as if he had been a stranger who had halted to let her, his superior, pass.

CHAPTER XI

At Haight's

Once again with Caleb the question of Betty Clinton became paramount. He had come out of the offices of the Water company a deserving conqueror, pardonably elated, a bright road stretching ahead of him. Now the vistas of his life were drab. Inspiration, the desire for success, seemed to have flowed out of him like water out of a drain. The reason was plain enough, the fact one that he could not overcome nor set aside. Betty Clinton had gone out of his life and, without her, life hardly seemed worth bothering about.

She had given him less attention than she would have bestowed upon a street beggar. There at least some charity would have shown in her gaze. But for Caleb her eyes had held nothing—as if he had never existed.

Something had happened within the last forty odd hours. It was inconceivable that the affair at the Vedders was responsible for the deliberate slight she had put upon him. She had heard something, a slander, that had turned her utterly against him.

And that meant Baxter. No one else. The pointer of Circumstance infallibly swung toward him. He might still imagine that Caleb could have loaned him the money, had deliberately deserted him at the time when he most needed help. In revenge he had carried a tale to Betty Clinton. But what sort of tale was it that she had listened to upon so short acquaintance? She was not the type to listen readily, to pass a hasty judgment.

He paced up and down his little office, the sweets of victory turned bitter, trying to bring logic to bear upon the situation, without avail. At five o'clock he started for the cafe to meet the stenographer, holding a vague idea that she might be able to throw some light upon the matter.

He entered the foyer of the restaurant, filled with people coming from the matinee, and mounted the stairs to meet the deferential captain of the waiters. Caleb gave him his card.

"A lady should be waiting for me," he said.

The man glanced at the card and returned it, receiving in exchange a crinkly bill that was deftly palmed and vanished. Then he led the way, catfooted, down a soft-carpeted corridor, stopping before a certain pair of drawn curtains and touching a bell in the partition frame.

"It is monsieur," he announced, withdrew and glided down the passage. Caleb entered the alcove.

It had an arched opening that looked out over the main floor of the cafe. The opening was partially blocked with artificial orange trees, the fruit represented by small electric bulbs. By the side of the opening, unseen from below, angled in the corner behind the curtains, sat the stenographer. The glow from the mock oranges gave the oval of her face a weird quality.

It robbed her of all benefit from rouge and powder and turned her features to a tragic mask of weariness and strain. She was only a shadow of the blooming picture that had once held the "place of present honors" on Baxter's bureau.

"You will have to order something," said the girl. Her voice was toneless. She had made no motion since he entered. He touched a bell and a sleek waiter almost instantly tapped and appeared.

It Was the Stenographer, Mary Morgan.

"A sandwich," said the girl languidly. "Chicken sandwich, Emile—Some tea—strong—in a cup. Kiros cigarettes, straw tips."

"Just tea for me," said Caleb.

"Yes sir. In a cup, sir?"

"Of course."

It was plain that the girl had been in the balcony alcoves at Haight's before. The fact was more evident when the tea—"strong, in a cup," arrived. It was Scotch whisky. After she had sipped it down a little sparkle came to her eyes. She took a cigarette, tapped its end and lit it.

"If you don't mind I'll smoke before we talk?" she said and inhaled avidly. It seemed to restore her animation somewhat. She folded her long-fingered hands on the cloth and looked directly at Caleb.

"Ted Baxter is a great friend of yours, I suppose?"

There was a sneering quality to her voice that made it harsh. The sparkle in her eyes had changed to a steady glitter.

"We have been friends for a great many years," Caleb answered.

She gave a low, short laugh. Evidently she knew about the quarrel.

"I have come here to sell you something," she said. "As I told you, it is to your interest to listen to me. I want money enough to leave Golden, to go East for a while. You can imagine why. It'll take fifteen hundred dollars. My information should be worth many times that."

"Knowing I am a friend of Baxter's, why do you apply to me for the money? Isn't he the one to supply it for that purpose? Doesn't he intend to?"

"I don't know whether he does or not. You know all about his mother and the stock deal? He's broke. Even if he puts over his land deal he'll need it all to square his debts—of honor."

Her voice was acid with satire. "Suppose we leave him out of this for a bit," she said almost fiercely. "This affair is between you and me."

"What is it?"

She eyed him narrowly, lighting another cigarette. With the curious cadmium tint of the mock orange globes on her face, the spark of the cigarette as she inhaled it, the glitter in her eyes, her attitude, she appeared jaded, over worldly, cynical, rapacious.

"If I should tell you that there are parties who plan to block your plans with the Water company, if I should tell you who they are, what knowledge they possess, how they expect to use it, will you give me the money?"

"It depends upon whether the information is valuable enough. Whether their plans are really dangerous to my interests—and to those of the company."

"I am dealing with you, Mr. Warner. I've made carbons of the minutes of the meetings. I want your word that you'll give me the money before I give away my information. I'll go further," she went on as she saw hesitancy in Caleb's eyes. "You have other interests than just with the Crystal Springs crowd. This affects those as well."

"What do you mean?"

She lowered her voice. "You are interested in Miss Clinton."

Caleb hardened. But the girl was staring at him and he felt that somehow he had betrayed himself, for she gave a little satisfied smile.

"We'll leave her out of it," he said.

She shook her head.

"We can't. I'm another woman. Not a man. I'm not saying anything detrimental to her. But this touches her as well as you. Now will you give me your promise and listen?"

Caleb reflected rapidly. He could manage the fifteen hundred. It was a big sum. Even with his attained hundred thousand, with his promised salary, it still seemed large. He could not undo in a moment the instincts due to heredity and training. But the girl had struck the right note. He felt that she held the key to Betty Clinton's conduct towards him. And, as he realized that, the money lost all value.

"All right," he said. "I promise."

"You propose to dam Hermanos valley. That is a main point in your plan. To hold back the storm waters. It shows on the model and in your specifications. Well, you can't get Hermanos valley."

"Why not? Public utility can command condemnation proceedings."

"It can't supersede a previous contract to sell."

Caleb stared. The girl was no ordinary employee. She was clever enough to have a good grasp of the affair. He saw immediately that, in her semi-confidential position of assistant to Cox's secretary, she had had access to details. She had seen the model. And she had been the one to supply the parties she spoke of with their information. Baxter was in it, of course.

"What is this contract? Who holds it?"

"It is a year's option of sale. Baxter holds it."

For a moment Caleb saw red but he controlled himself under the girl's watchful eyes.

"I'll tell you how he got it. He has been looking for an acreage to suit certain clients who want to locate near here. You told him about Hermanos. He thinks he was clever to get it out of you. Though I don't think you two had quarreled then. But you did. And he wanted to get even. He met Miss Clinton and her father. He learned that Mr. Clinton had been thinking of selling, but with reservations, holding back the home ranch and the place where all the Clintons were buried. That gave him his idea. Oh, he's smart enough. At first I think he just wanted to tie up the valley to spite you and ruin your plans by selling it to his clients. But this opened something more. A chance to put you in absolutely wrong with the Clintons, with Betty Clinton. He knows you are in love with her. And so is he!"

(TO BE CONTINUED.)

Little Hope for Universal Tongue

All hopes of a universal language have received a serious setback, if they have not been completely shattered. Once German, French and Russian represented such hegemony as existed in Europe. Today a hundred different languages demand recognition as the voices of nations.

"Official languages" now exist for Esthonia, Latvia, Lithuania, Finland, a part of Poland, the Ukraine, Georgia, Azerbaijan and Armenia. There is an attempt to revive Gaelic in Ireland, and in Spain the Catalonians are demanding the right to teach Catalonian in the schools. There is a struggle in Czechoslovakia, in Schleswig-Holstein and in the Balkans for supremacy or at least autonomy among Czech and German, Danish and German, Croatin, Rumanian, Serbian, Greek, Bulgarian; between the Latin and Cyrillian alphabets. In Palestine, where they are seeking a national language, there is contest among Yiddish, Hebrew and Judeo-Espanol, the latter much used by Spanish Jews of Constantinople and Salonikі.

Evil of Prejudice

It is no exaggeration to say that the greatest obstacle to human progress along every line is to be found in human prejudices. It is our prejudices that blind us to the truth, and it is truth alone that can ever make men free.—John Herman Randall.

Bird Knows Its Business

The wings and tails of the Argus pheasants are studded with scores and scores of large and very perfectly marked "eyes," and it is from these that he has earned his name. He knows that it is useless to try to court his sweetheart while she can still see his hopelessly plain face. (His features suggest a small and degenerate cousin of a bald-headed vulture.) When, therefore, he goes a-wooing, he displays his handsome clothes, and at the same time hides his face in his feathers, taking occasional peeps to see if he is making any progress, says the London Mail.

NEW FEATURES IN TRAVEL COATS; FADS AND FANCIES FOR SUMMER

THERE are travel coats and travel coats—for all sorts of journeyings—beginning with those rough-and-ready tweeds and Scotch woven fabrics that will stand much hard usage and ending with twills, almost equally hardy, but less simply designed. Now is the season when all the world goes traveling and Paris undertakes to meet every need of the tourist and to see to it that every coat is chic and interesting.

Designers have been much helped out by new Scotch fabrics in soft colorings and with borders in tones of the same color. Besides these there are large, striking plaids in clear black and white, some ombre stripes and large, indistinct plaids in colors. All these figured fabrics are manipulated to make them decorative, as in striped coats with the stripes running round outshone the others. Fashion has not developed a furore but has spread its attention over all accessories, giving each of them more or less attention. To scarfs and ties it has given more; but other neckwear, gloves, shoes, bags and costume jewelry bear the stamp of this season's vintage of new fancies.

There is a fad for crystal jewelry. Short necklaces of crystal rondelles interspersed with black or colored beads, combinations of crystal and rhinestones in collars and bracelets to match, chokers of rock crystal and delicate earrings of crystal and rhinestones are worn with many costumes. They are cool and elegant looking. Besides white crystals the aquamarine finds itself approved and in increasing demand. The beautiful and delicate "grotto blue" is lovely in sparkling

TWO DESIGNS FROM PARIS

the figure and panels, or pockets, collar and cuffs, with vertical stripes. Large plaids, cut on the straight in the coat and on the bias in its accessories, achieve an effective decoration and bordered materials provide many opportunities to the designer. Fur collars and occasional other touches of fur are about the only things used outside the material in these smart utility coats, and the fur is chosen to harmonize with the color of the material. A coat which illustrates the use of fur is shown at the left of the sketch. It is made of a soft, gray coating cut with a pointed panel in the back and finished with a scarf. Natural squirrel fur finishes the scarf ends and accents the split at the back cut-crystal beads used in necklaces and earrings. Earrings are nearly all in delicate patterns, whatever the medium used for making them. Hoops of rhinestones are liked and find themselves in the company of rhinestone pins with the initial and monogram types the most fashionable. Some very interesting masque pins are shown in metal and in rhinestones. Flexible, linked collars and bracelets to match and stone-set bracelets are equally popular. In watches the square and oblong patterns in many varieties are most fashionable.

The story of gloves is short; the one-button type with novelty wrist and the graceful slip-on, in fabric, or

IN TUNE WITH SUMMER

which extends from the end of the pointed panel to the bottom of the coat and provides plenty of freedom for walking.

Twill in navy or beige is popular for the travel coat and Drecoll contributes an ideal model in the coat shown at the right of the sketch. It also has a short scarf collar and is a double-breasted, straight-line model in which the gray leather belt and single button fastening are decorative. The management of the pockets is particularly clever and the design is well adapted to the striped and plaid fabrics as well as to plain cloths.

Among the various pretty furbelows that are called upon to finish off the summer costume, no one particular item has overshadowed or in washable doeskin, are preferred. Sometimes the gauntlet cuffs in these styles are embroidered and nearly always they are scalloped. In fans old French types have been revived and the ostrich feather fan maintains its hold. Parasols are mainly represented by Japanese imports of oiled paper and bamboo or wooden handles. They are semitransparent and artfully colored and they have fascinating decorations of painted figures and floral patterns. The one important rival of these sports sunshades, of which an example is pictured here, are those short, rain-or-shine affairs made of rubberized silk, with fancy handles short enough to be carried in a suitcase.

JULIA BOTTOMLEY.

(©, 1926, Western Newspaper Union.)

Featuring the Hem

Many a georgette crepe frock is given a distinct style by finishing the head with a wide puffing of taffeta in the same shade. These bands often amount to thick ruches.

Corsage in Back

A very extreme French model for evening is of taffeta with a full, bouffant skirt with flowers, outlining the waistline in the back, but not in the front.

Kasha Much Worn

The warm days have done more to settle the styles than all the dressmakers have accomplished. Kasha and kasha tolle obviously are to be considered outstanding fabrics with the ensemble holding its place in the styles without serious opposition.

Silver-Gray Hosiery

Stockings in an exquisite shade of silver gray are featured with shoes of black patent leather.

The Kitchen Cabinet

(©, 1926, Western Newspaper Union.)

"By day its voice is low and still—
A charming, dancing little rill;
But when the silent night is here
Its voice is heard so loud and clear
And yet so sweet it often seems,
As though the brook brought pleasant dreams."

GOOD MILK AND CREAM DISHES

A tablespoonful or two of sour cream will add a flavor to a salad dressing which will take it out of the ordinary class of dressings.

Cabbage shredded very fine and dressed with sour or sweet cream, sugar, a dash of vinegar if the cream is sweet, is another most tasty dish well liked by many men who refuse salads otherwise. A half cupful more or less of sour cream added to a cake mixture gives a most delightful flavor and texture and the cake will not dry out as quickly as the ordinary cake mixture will. The custom of making frozen dishes, using sour milk or buttermilk with fruit juices, is one to be commended. The mixture is less rich than creams and more cooling for hot weather desserts.

Raspberry Sherbet.—Take one cupful of sugar, and one cupful of raspberry juice, a tablespoonful or two of lemon juice and three cupfuls of buttermilk. Freeze as usual. Fruits, mashed and put through a sieve such as fresh peaches, apricots, adding lemon juice, sugar and buttermilk or plain sour milk in proportion, makes a variety from which to choose in frozen fruit dishes.

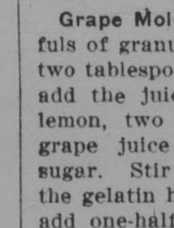

Grape Bavarian.—Mix one and one-half tablespoonfuls of gelatin with two tablespoonfuls of water and one-half cupful of grape juice. Dissolve one-half cupful of sugar in one cupful of boiling water, pour into the gelatin mixture. Add three tablespoonfuls of lemon juice, cool and when slightly thickened, fold in one cupful of sour cream whipped. Set away to mold.

Cornmeal Cooked in Milk.—Scald four cupfuls of milk and add gradually three-fourths of a cupful of cornmeal, one and one-half teaspoonfuls of salt, stirring until well mixed. Cover and cook in a double boiler for two hours. Serve as a dessert with cream or with milk as a full meal.

Grated horseradish mixed with whipped cream, salt, sugar and a few dashes of cayenne is a good sauce to serve with fish.

Popular Foods.

Now is the time for all good housekeepers to serve the wild mushroom.

It will be found in woods and pastures and when served with cream on toast makes a dish of rare flavor. Broiled mushrooms are delicious. Place the caps on a buttered broiler and cook well on the top, turn and cook on the other side; in each cap place a lump of butter and serve on toast, or as a garnish for broiled steak.

Deviled Mushrooms.—Mix a teaspoonful of mustard, a dash of cayenne, a teaspoonful of worcestershire sauce and half a teaspoonful of paprika, cover broiled mushrooms with this mixture and serve on hot buttered toast.

Grape Mold.—Take four tablespoonfuls of granulated gelatin, soften with two tablespoonfuls of cold water, then add the juice and grated rind of a lemon, two and one-half cupfuls of grape juice and one-half cupful of sugar. Stir until well dissolved and the gelatin has begun to thicken, then add one-half pound of grapes seeded and skins removed. Pour into a wet mold and set away on ice to harden.

Date, Nut and Pineapple Salad.—Chop a cupful of dates and three good-sized apples, add a cupful of chopped celery and a cupful of broken nut meats, one-half pound of seeded and skinned grapes. Mix all together and heap on a slice of pineapple which has been marinated in French dressing. Serve with mayonnaise dressing. Marshmallows may be used in place of nuts if cut fine.

Peach d' Armour.—Fill tall glasses with peach ice cream and sufficient raspberry juice to run down through the glasses and color the cream. On top place a spoonful of plain vanilla ice cream and garnish with a fresh raspberry or two.

Date Custard Pie.—Cook one-third of a pound of dates washed and stoned with two cupfuls of milk in a double boiler. Rub through a sieve, add two beaten eggs, salt and suger to taste with a grating of nutmeg or a bit of cinnamon. Bake in one crust and cover with a meringue in which a few marshmallows are placed. Brown lightly.

Prune Whip Parfait.—Mash after stoning one-half cupful of stewed prunes, add one-half cupful of stewed raisins, a pinch of salt, eight marshmallows cut up in half a cupful of cream and steamed until soft, then beaten smooth. Into the marshmallow mixture whip the other ingredients. Set on ice to chill. Serve with chopped nuts.

When stirring food in a small dish on the stove steady it by using a clothespin.

Fooling the Public: Then and Now

ebrated 'Moon Hoax' a Sensation Here and Abroad.

PROEHL HALLER JAKLON

MAN gets a big kick out of fooling his fellows. There seems to be something delicious in baiting a trap seeing someone bite. The e age and the age before it ably had its practical jokers, all history is full of jokes and es, perpetrated to the delight me and to the embarrassment others.

Sometimes the fooling is for gain, etimes for fun, and often for Individuals indulge in it, and nations have been known to mpt a hoax on other nations. ness the wooden horse of the eks and the tulip craze of the teenth century, when all Hol- set out to make the world re the tulip, which, it was rned, would thrive on certain es of Dutch soil useless for thing else. Soon all the world nted this new flower, and bulbs d for as high as $5,000 apiece. e Dutch growers waxed rich, then the fad waned, leaving purchasers all er the world with expensive bulbs but no rket. Centuries later Americans were to fall ginseng, alfalfa, mushrooms, and silver foxes. a great game.

Perhaps the most celebrated hoax in history the "moon hoax," conceived by Richard Adams ke, a newspaper reporter, and perpetrated by New York Sun in 1835. Its success depended on man's interest in astronomical phenomena, t insatiable curiosity to know what lies be- d the veil of space which surrounds the earth. cience today is convinced that the moon has life upon it, but a century ago, before the of powerful telescopes, the public knew little the heavens beyond what it could see with the ed eye after dark. Speculation was always as to whether or not life existed on the on. Today we wonder the same thing about planet Mars.

oon Hoax Fools Two Continents

And so the New York Sun chose a very fertile d in 1835, when it began the publication of cke's fantastic imaginings with all the serious- s of a great scientific discovery. For a time credulous public of two continents, and even scientists, were completely deceived. This stu- ndous feat brought the Sun the largest circula- n in the world, and in the opinion of Edgar Al- Poe established the penny newspaper as an stitution.

Locke could write about almost anything. His nd of general information was huge, and he uld turn out prose or poetry, politics or pathos, ecdotes or astronomy. In 1834 Locke heard f an astronomical expedition to South Africa. ow, during July and August, 1835, things were bit dull on the island of Manhattan, and the wspapers were running short of material with ich to entertain and attract their readers. ke needed money, and so he laid a plan before They, the Sun's editor. On August 21 the fol- ing item appeared on the second page of the

"A Scene on the Moon." Published in Connection With the New York Sun's Celebrated Hoax of 1835.

lestial Discoveries—The Edinburgh Courant e have learned from an eminent publisher this city Sir John Herschel, at the Cape of Good pe, has made some astronomical discoveries of s most wonderful description by means of an ense telescope of an entirely new principle."

Then after four days the Sun published what irported to be a reprint from a supplement to e Edinburgh Journal of Science. There had en such a publication a few years before, but was not generally known that it had ceased publication. In three columns on page one the un carried the astonishing announcement of recent discoveries which will build an imperish- ble monument to the age in which we live."

They Describe the Telescope

A technical description of the telescope followed, and a hypothetical account told of the channels through which this remarkable news had traveled from Cape Town. Thus was laid the founda- on of what was to follow. To queries as to here it had obtained its supplement to the Edin- rgh Journal of Science, the Sun declared in an itorial that "it was very politely furnished us a medical gentleman immediately from Scot- nd.

No great excitement had been caused so far, but next day the town was jolted by four columns actual description of the landscape of the on. Sir John's telescope was so powerful, story asserted, that it brought objects to within a few feet of the observer. This is what astronomers in Cape Town were reported have seen:

"The trees for a period of ten minutes were of unvaried kind, and unlike any except the larg- class of yews in English churchyards. They followed by a level green plain which must been more than half a mile in breadth.

column farther on, in a wonderful valley of s wonderful moon, life at last burst upon the me:

"In the shade of the woods on the southeastern we beheld continuous herds of brown quad- eds, having all the external characteristics of bison, but smaller than any species of the bos nus in our natural history. . . . It had one distinctive feature, which we afterward found com- n to nearly every lunar quadruped we have covered; namely, a remarkable fleshy appendage er the eyes, crossing the whole breadth of the rehead and united to the ears. It immediately oc- rred to the acute mind of Dr. Herschel that this s a protective covering for the eyes against the eat extremes of light and darkness to which all inhabitants of our side of the moon are period- lly subjected."

nd Humans on the Moon

The issue of August 28 satisfied public curiosity to the presence of human creatures on the on. The astronomers were looking at the ts and crags of a new part of the satellite:

"But whilst gazing upon them we were thrilled th astonishment to perceive four successive ks of birds descend with a slow, even motion m the cliffs on the western side and alight upon plain. . . . About half of the first party passed from our view, but of all the others had a perfectly distinct and deliberate view. y averaged four feet in height, were covered, ept on the face, with short and glossy copper- red hair, and had wings composed of a thin membrane, without hair, lying snugly upon their backs, from the top of their shoulders to the calves of their legs.

"The face, which was of a yellowish flesh-color, was a slight improvement upon that of the orang-utan, being more open and intelligent in its expression, and having a much greater expanse of forehead. The mouth, however, was very prominent, though somewhat relieved by a thick beard upon the lower jaw, and by lips far more human than those of the ape. . . . These creatures were evidently in conversation; their gesticulations, more particularly the varied action of the hands and arms, appeared impassioned and emphatic. We hence inferred that they were rational beings, and, although not so high an order as others which we discovered the next month on the shores of the Bay of Rainbows, that they are capable of producing works of art and contrivance. . . . We scientifically denominated them as vespertillo-homo, or manbat; and they are doubtless innocent and happy creatures."

The Astronomers Get Careless

The next installment, totalling 11,000 words, was printed on the three succeeding days. In it was revealed the discovery of the great Temple of the Moon, built of polished sapphire, with a roof of some yellow metal, supported by columns seventy feet high and six feet in diameter. In the valley of the temple a new species of man-bat was discovered. Then one night, when the astronomers finished work, they carelessly left the telescope facing the eastern horizon. The rising sun burned a hole through the reflecting chamber, and ruined part of the telescope. When the damage was repaired the moon was invisible, and the great moon narrative came to an end.

By this time New York was talking of nothing except these astounding discoveries; they were the sensation of the day. French and English papers abroad translated or copied the Sun's fabrication, and the sensation in Europe was equal to that in this country. The Sun, founded only two years before, saw its circulation increased to 19,360, exceeding by more than 2,000 the circulation of the London Times, hitherto the largest in the world.

Meanwhile, Sir John Herschel in South Africa was busy with his telescope entirely unaware of the "discoveries" credited to him. When he at last found out, he was overcome, saying that he never could expect to live up to the fame that had been heaped upon him.

Of course, many persons suspected the hoax, but the detail of the story was so minute and lavish that no one dared say anything. Many of the rival papers were fooled along with the public. The Journal of Commerce was on the point of reprinting the Sun's story "in justice to its readers," when Locke himself gave the hoax away.

In the words of Edgar Allan Poe; "From the epoch of the hoax the Sun shone with unmitigated splendor. Its success firmly established the 'penny system' throughout the country and (through the Sun) we are indebted to the genius of Locke for one of the most important steps yet taken in the pathway of human progress."

"Cardiff Giant" Hoax of 1869

Today, with our rapid means of communication and transportation, a hoax of such gigantic proportions could not long endure the light of such publicity. On the contrary, the public seems all too willing to stamp any unusual bit of news as a mere "newspaper yarn," that is, if they do not want to believe it. This will-to-believe or to-disbelieve is a powerful factor with the human mind. If it makes you feel better to believe something, psychologists tell us, you are likely to hold it so; if it disturbs your peace of mind to accept something as true, you are likely to wave it aside as foolishness or heresy. There are persons in America today who refuse to subscribe to the theory that the earth is round. They like to think of it as flat, and flat it is to them. What's the difference?

A famous hoax of 1869 was that of the "Cardiff giant." Well diggers near Cardiff, N. Y., one morning came upon the stone figure of a man ten feet tall, with shoulders three feet in breadth. The right arm and hand lay across the body, while the left was pressed against the back directly opposite. The legs were slightly contracted as if by pain, the left foot resting partially upon the right.

Speculation ran rife as to the origin of the giant, and some of the visitors were quick to recognize its value as an exhibit. Before long the farmer on whose land the figure was found set up a tent and charged admission. The ordinary visitors were usually content with the belief that this was a petrified human being. "Nothing in the world can ever make me believe that he was not once a living being," declared a woman who viewed the colossus. "Why, you can see the veins in his legs."

Geologists, however, thought differently. One declared it to be the work of the Jesuit fathers two or three hundred years before. Another geologist emphasized the antiquity of the statue and called attention to the corroding or attrition of part of the under surface of the body by the solution, he declared, would have required a long period of years.

In the meantime, the giant continued to draw

The 'Cardiff Giant' Took in Credulous Public and Much Cash.

the dollars of the curious. P. T. Barnum tried to buy it, but a local syndicate already had obtained control, and his offer was rejected. This new company, one of whom is said to have been the original from which the character of David Harum was drawn, paid $30,000 for a three-fourths interest. The success of the exhibition led Barnum to have carved a similar figure which was likewise exhibited as the "Cardiff giant." The owners of the original sought to obtain a restraining order against the Barnum counterfeit, but it was refused. Both giants, therefore, continued to draw the crowds.

Now, the assumption had always been that the discovery of the figure had been accidental, but there were those who doubted this version. Residents of the county in which the well diggers worked began to recall that about a year before the discovery a mysterious four-horse team was observed drawing a wagon which carried a huge iron-bound box. It was headed in the direction of Cardiff.

Professor Marsh of Yale, a paleontologist, examined the figure and asserted that it was clearly of recent origin and a most decided humbug. Then, a lawyer of Fort Dodge, Iowa, seeing the figure at Syracuse, wrote back home: "I believe it is made out of the great block of gypsum those fellows got at Fort Dodge a year ago and sent back east."

Gradually the story came to light. In the summer of 1868, two men arrived at Fort Dodge, and attempted to make a bargain for a block of gypsum at least 12 by 4 by 2 feet, explaining that they wished to exhibit it in New York. They leased some land and hired a quarryman to get out a block of the required size. Its owners announced that it was to be shipped to New York, but freight office records showed that it was billed to Chicago.

Here a German stone cutter carved the gigantic figure from the block. Great care was taken to give it an ancient appearance. From Chicago the finished statute was shipped by an indirect route to Union, N. Y. Here the mysterious four-horse team appeared, and the giant, encased in an iron-bound box, began his wandering in search of a likely grave.

This Hoax Paid Big Dividends

One of the men was George Hull, a relative of William Newell, the farmer on whose property the giant was "discovered," under the personal direction of Newell. Both men made thousands of dollars out of their unique venture.

Another hoax which goes on from generation to generation is one concerning the "original log of Columbus." Despite the fact that the only undoubtedly authentic handwriting of Columbus, a four-page letter, is in the possession of the king and queen of Spain, the "original Columbus log" turns up every few years. In 1924 it turned up in Mexico. Strangely enough, it was written entirely in German!

The literary hoax seems to be the most popular form of fooling and almost the easiest of perpetration. A recent one fooled the literary editor of the New York Times, who conceded that while "The Diary of a Young Lady of Fashion, 1764-65," had not "any of the importance that attaches to such a monumental record as was left behind by Pepys" the author "did throw the beams of her candle here and there on the features of her times." Now the New York Times itself discovers that a nineteen-year-old miss is the author of this successful hoax.

Some hoaxes go unchallenged until the author can refrain no longer from informing the public how he has fooled it. Such is the history of the "bathtub" hoax, put over several years ago by Henry L. Mencken, now the editor of the American Mercury. Mencken wrote a short, informal account of the origin of the bath-tub in America. The first tub, he said, was installed in the home of a wealthy Cincinnatian. He traced the rise of the tub's popularity, and declared that at first physicians were violently opposed to its use on grounds of health. Several states were said to have passed laws against the installation of the new sanitary equipment.

Mencken Exposes Bathtub Hoax

Only recently Mencken exposed his trick. No one, he commented, in all the years since this bit of imaginative history has been current, questioned the facts he cited. His original story has been quoted all over the world, and incorporated in solemn treatises.

One of the most celebrated literary hoaxes was that of the Scotch school teacher Macpherson, who, having learned a little old Celtic and Gaelic language and literature, brought forth his "Poems of Ossian." It aroused the world, and has been cited as one of the causes of the Romantic movement in literature that swept Europe in the late Eighteenth century.

There is the eloquent hoax known as Patrick Henry's "Give me liberty or give me death" speech, thought to have been delivered by the great orator in 1775 at St. John's church near Richmond, Va., but really written by his biographer, William Wirt, years after Henry died.

And all of us know that beloved fake known as the Washington hatchet and cherry tree story invented entirely by Washington's first biographer, "Parson" Mason Weems. Lengthy explorations have been made into the facts surrounding both the foregoing fictions, and the inevitable conclusions have been in agreement with those given here.

Edgar Allan Poe once announced in a Baltimore newspaper that on a certain day he would make a trip from the roof of a building in his lately-invented flying machine. Several factories allowed their workers time off to witness the event, and on the appointed day a vast crowd awaited in front of the building for the spectacle. Poe, seated in an upper window, sent down bulletins giving excuses for his delay. After several hours he announced the flight was off because "one of his wings had got wet." Tradition has it that he escaped through an alley window.

NELLIE REVELL Says:

FOR five years I was barred by illness from the arena of active life, having been forced by circumstances to fight another sort of battle, and during practically all of my time, my office, home, gymnasium, reception room, and even my restaurant was a hospital room. But no matter what vicissitudes I have experienced, no matter what I have lost in this long siege, nothing can deprive me of the memories I treasure.

I find a parallel in the story of the old colored man who had saved all year for his annual visit to the circus. At length the day rolled around and he set out for town in a shiny, bulging frock coat and a beaver hat that showed the ravages of many years. With him he took his whole fortune and thrilled with thoughts of the show, the gallons of pink lemonade and the yards of hot dogs the money would buy.

However, on his arrival at the show ground he dallied, not wisely but too credulously with the men who managed to live on one little pea and three empty shells the season through. After the usual preliminary luck the old negro enriched their pockets by the whole sum of his savings and was forced to walk back home without a glimpse of the big show, a taste of lemonade or the smallest bite of "sawsages."

When he reached his little settlement the envious gathered around him to inquire about the wonders of which they had heard so much.

He was unable to tell them anything except that a white gentleman had been so kind as to let him try to guess under which shell a pea had its abode and that, no matter what he guessed, the pea was always elsewhere. And he hadn't seen the show, nor tasted the lemonade nor enjoyed the much-craved frankfurters.

"Dey done cheated you, uncle," spoke up one of the younger sophisticates, who had been "taken" the same way the year before.

"Nor, suh," said the old man, "Ah won some money at fust and dey didn't mind dat a bit. Ah was pow'ful lucky for a time; den mah luck tu'n an' dat white man won. I neveh did see a man so lucky befo'.

"Lucky nothin'. Dey done took yoh money," persisted the man of the world. "An' dey didn't leave 'nough to see de show, nor buy nothin' to eat an' drink. Dey jus' done took eveh' thing away fum you."

"Mebbe so, mebby so," replied the half-convinced Uncle Mose, but dey wuz one thing dey couldn't take away fum me. Ah done heah dat lion roah."

That's the way I feel about my illness. And even if fate should never permit me to come back entirely, the world owes me nothing. I have given it a receipt in full. "Ah done heah dat lion roah," and all of life's crooked dice can't take that away from me.

If I live to be a hundred (and I'll have to, if I only do 50 per cent of the things I promised to do when I recovered from my illness), I will never forget the scene in my hospital room one Sunday afternoon two years ago. Jennie Jacobs, the theatrical agent, had come to call, and as she got out of the elevator she heard peals of laughter emanating from my room.

"Fine," she thought, "there's some nice, jolly company there," and she was glad, for she, herself, had not fully recovered from an automobile accident, and questioned her ability to cheer anyone. Upon entering she beheld Molly Fuller, the vaudeville actress, and the writer indulging in the sacred art of helping each other carry on.

Molly, who is blind, was telling me how happy she was at the prospect of returning to work in the vaudeville sketch that had been written for her by Blanch Merrill. We roared at the humorous possibilities in an act of the sort, she described.

"You see," said Molly, "if an attack of asthma overtakes me in the porch scene, I can just asthma all I like, and the audience will think it is a fine bit of acting.

"Yea," I replied. "Think of having asthma and being paid for it."

Miss Jacobs looked on but said little, and when Molly rose to leave and began fumbling her way out, still joking about my not bothering to come to the car with her, an atmosphere of tragedy enveloped the room. Miss Jacob's eyes filled at the sight of two friends she had known in perfect health now so afflicted. The situation was tense and Bide Dudley, the dramatic editor was never more welcome any place in his life than when he walked into my room at that moment.

When you get blue and discouraged stand on the sidewalk and watch the crippled, the blind and the unsuccessful go by. Then you will thank your lucky stars that you are well, able to work and have a job.

Doing an injury puts you below your enemy; revenging one makes you but even with him, forgiving it sets you above him.—Benjamin Franklin.

WANTED TO EXCHANGE—A ton of prunes, little used, for a mess of steamed clams. Or what have you?

Every man has some weakness. A common one is making suggestions to his wife about running the house.

The World Over

A perfect baseball bat is made in 30 seconds.

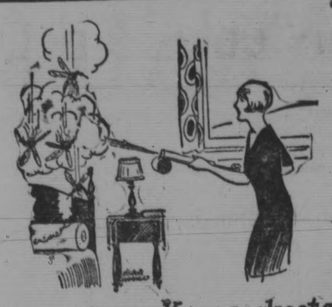

The largest electric globe ever made is a 40,000-watt giant.

Thousands of articles of daily use are made from bamboo.

A rocket designed to travel six miles a second has been invented.

A one-wheel cycle is the new passenger vehicle invented in Italy.

Crude platinum is usually found in the form of rounded or flattened grains.

A spray a day - Keeps skeets away

DON'T let mosquitoes ruin your summer. Keep your bed rooms free from all insects. Spray Flit.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills *all* the insects—and does it quickly.

Get a Flit can and sprayer today. For sale everywhere.

Gland Extract to Heal Broken Bones

It is possible that, as the result of recent experiments in Japan, the breaking of a limb, or even a hip, may soon be looked upon without alarm.

Healing broken bones may be hastened and the fractured bones of even old people will knit together if the patient is treated with a certain glandular extract. Next to the thyroid gland in the neck are four tiny glands known as "parathyroid glands." It is claimed that when an extract from these is swallowed or injected the percentage of calcium and phosphate in the blood serum is caused to rise.

These chemicals are both essential in bone building, and one reason why bones are slow to heal is because it takes a long time to extract enough of these substances from the blood.

Doctor Owaga, a Japanese surgeon, has been experimenting with parathyroid extract, with results that seem to indicate success.

Cuticura Comforts Baby's Skin

When red, rough and itching, by hot baths of Cuticura Soap and touches of Cuticura Ointment. Also make use now and then of that exquisitely scented dusting powder, Cuticura Talcum, one of the indispensable Cuticura Toilet Trio.—Advertisement.

The Writers of 1950

It is almost certain that the majority of the great names of 1950 are writing today without any general appreciation. They have not been spotted as winners by the sporting prophets, and publicity paragraphs are not published about them. Few or none recognized the spring of greatness in the early George Moore, or in the early Meredith. And there is scarcely a permanently great name in the whole history of fiction who was not when he first wrote overshadowed in the popular and even in the semi-expert esteem by much inferior novelists.—Arnold Bennett in "Things That Have Interested Me."

Conversation

Conversation between electricians:

"How's all ohm?"

"Pretty good. How's all your volts?"

The average vertical window pane in the ordinary industrial center collects enough dirt in six months to exclude 50 per cent of the light.

Somewhat Off the Route

A Kansas City woman golfer was relating very touchingly how careful she was not to disturb a meadow lark's nest while playing a difficult shot the other day. It seemed the ball lay very close to the nest, and the nest contained some eggs. But she managed to play it out without breaking the eggs, though the mother bird's frantic fluttering made her quite nervous.

"I should think," said one of her auditors, "that a lark which had no more sense than to nest on the fairway ought not to expect such kind consideration."

"Oh, but this wasn't anywhere near the fairway," explained the lady golfer.

Gold Mining in Spain

Although gold mining in Spain has a history going back to the Romans, its story so far is rather gilded than golden. Now, however, dredging alluvial soils on the River Orbigo, in the ancient province of Leon, begun seriously in July, 1925, is giving such promising results that a second bucket dredger is about to be installed by the company making the venture.

Your shoes feel easy if you use
ALLEN'S FOOT-EASE

Stops the pain of Corns and Bunions and you can walk all day in ease and comfort. Nothing gives such relief to hot, tired, aching, inflamed or swollen feet, blisters or calluses. A little ALLEN'S FOOT-EASE sprinkled in each shoe in the morning will make you forget about tight shoes. It takes the friction from the shoe. Always use it for Dancing and to Break in New Shoes. Unreasonable Kick

"See here," said the irate motorist to the dealer in automotive accessories, "the speedometer you sold me last week registers too high." "All the better for you," replied the dealer. "Why, what do you mean?" sputtered the motorist. "You get more miles to the gallon," was the answer.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

Snubbing Made Almost Perfect

esse Livermore, at a luncheon in apartment at the Everglades club Palm Beach, told a story about a b.

There's a lady down here," he said. o's glad to be in society mainly account of the fun she gets from ping other people out. This lady he champion snubber, but she got come-uppin's last week.

She met two ladies on the beach. One of them, she knew, was the guest of the other, but she said to the guest, ignoring the guest's hostess:

"'Will you dine with me next Tuesday, dear?'

"The guest blushed at this rudeness to her friend and stammered:

"'But I'm—er—I'm staying with Fifine, you know.'

"Then the society lady saw she couldn't very well get out of it, so she looked Fifine up and down and said:

"'Suppose you dine with me next Tuesday, too—will you?'

"Fifine shook her head and laughed.

"'No,' she said, 'I can't dine with you next Tuesday, but listen. Will you lunch with me last Wednesday?'"

Wood Versus Steel

An insurance inspector claims that wood is a better risk against fire than steel and concrete. Oak, he said, when charred on the surface, ceased to be dangerous, but the safest of all timbers was Lombardy poplar, which refused to burn at all. The most fireproof building he knew was one timbered entirely with this wood, but the cost for general use is prohibitive and the supply inadequate.

News of Menlo Park

McPike Property To Be Improved

The H. N. McPike property on Oak Grove avenue, better known as the Loughran place, is to be cleared of brush, the old fences removed and the land placed in a position to be built upon. The work of clearing the lot is to be done by N. F. Nielsen of San Francisco, the contractor and builder.

To Camp in the North

W. J. Murray, James Murray and John Orton left on Tuesday for a camping trip to the northern part of the state. The party expect to be gone for ten days.

Chose School Site

At a meeting of the citizens of the Menlo Park school district held Wednesday evening, a site for the new school in Stanford Park was chosen. The Enten property, comprising a little over an acre and a half, it fronts on Middle avenue and also has a frontage on Jenkins avenue in the south and Fremont street. The sum of $4,750 is to be paid for the lot. The trustees, Mr. Mason, Mr. Polsen and Mr. Abel were present and presented specifications and plans for the proposed building prepared by Architect Coulter, San Francisco. The cost of the proposed building will be $12,000. This plan no doubt will be chosen. It is for a two-room school building with reservations made for additional rooms when they are needed and also for an auditorium. The Mission style of architecture prevails throughout. The structure will be a credit to Stanford Park.

Gymkanna This Afternoon

The big circus today at the old grounds is to be a jumbo affair. The proceeds are to be applied to the fund that cares for the children of the Stanford Convalescent Home. Hundreds of people will see the Gymkanna this afternoon.

Menlo Parlor At Theatre

Menlo Parlor N. S. G. W. has taken over the New Menlo Theatre for this evening and will put on a performance, the equal of which has never been presented to the people of Menlo Park. Secure your tickets at once and be sure of a front seat. The main picture will be "The Sap," with Kenneth Harlan featuring and an all-star cast. The Flynn Sisters of Redwood City will sing popular songs and Ray Tinney is to perform on the Marimba. Performers from San Francisco will also take part. A big dance is to take place after the performance and holders of theater tickets are entitled to take part free. Don't miss this big event. Two shows starting at 7:15 p. m.

$5,000 Necklace Lost

San Francisco detectives are in search of a $5,000 pearl necklace belonging to Mrs. Edna M. Black of Menlo Park, which is believed to have been lost in or near the Hotel St. Francis, San Francisco, on June 24, according to a report filed with the police by J. E. Hayward, adjuster for the Aetna Casualty and Surety Company.

As soon as she noted the loss, Mrs. Black conferred with Thomas P. Keating, assistant manager of the Hotel St. Orancis, and Walter Fisk(one of the house detectives.

A quiet search was made without success. After ten days, Mrs. Black decided to enlist police aid. The necklace consisted of 371 graduated pearls, according to the report made by Hayward to Policeman Frank Mascarelli at the request of Mrs. Black. Between each pearl there was a knot in the cord.

Mrs. Black, who is the widow of the late Dr. James Black, specialist of San Francisco, recently moved to Menlo Park, having purchased the home of the late Maj. Philip on Valparaiso avenue.

Leave For Europe

Mr. and Mrs. J. G. Morse of Menlo Park are on their way to Europe.

Bridge Practically Finished

The Dumbarton bridge is practically finished. The middle span is being towed down from the city and will be ready to be placed in position in a few days. The approaches to the bridge are nearly completed. Gravel and rock are being placed on the roads near the Carnduff place and soon this highway will be ready for travel out to the brige. The war department having issued its ukase preventing bridges to be constructed across the bay above Hunter's Point, makes the Dumbarton Bridge a popular institution.

Moved Here From S. F.

T. Ward, a prominent merchant of San Francisco and his brother-in-law, holding a responsible position in the customs service, have moved into their pretty home in the Hermosa tract. They have joined the army of commuters between this place and the city.

To Leave For Honolulu

Mark A. McCann, his wife and two pretty children, will leave next week for a five months' trip to Honolulu. While there they will visit all points of interest. The family expect to return by the latter part of August.

Mrs. Shortridge Leaves For L. A.

Mrs. Shortridge left during the week for Los Angeles to join her husband, who arrived in the south yesterday from Washington. The senator on Monday will address the members of one of the largest womens clubs in California. Senator Shortridge will be here next week for a short respite before launching into speaking campaign that will take him to almost every county in the state.

Edmund E. Bates, a pioneer resident of San Jose, and father of Mrs. L. E. Harris, whose husband is editor of the Menlo Recorder, passed away last Saturday. When Camp Fremont was here he was conected with the building department and resided in Menlo Park and became well known.

There will be a big feature picture shown in the Menlo Theatre tomorrow evening. Don't miss it.

NOTICE TO CREDITORS

In the Superior Court of the State of California, in and for the County of San Mateo.

No. 3841

In the Matter of the Estate of BERTHA B. LANGLOIS, alias BERTHA B. JUILLY, Deceased.

Notice is hereby given by the undersigned executor of the last will of Bertha B. Langlois, alias Bertha B. Juilly, deceased, to the creditors of and all persons having claims against the said deceased, to file them, with the necessary vouchers, in the office of the Clerk of the Superior Court of the State of California, in and for the County of San Mateo, or to exhibit the same, with the necessary vouchers, within four (4) months after the first publication of this notice, to the said executor at the office of the Times-Gazette, 61 Broadway, Redwood City, California, the same being the place for the transaction of the business of said estate in the County of San Mateo, State of California.

Dated this 8th day of July, A. D. 1926.

MARCEL E. JUILLY,
Executor.

J. W. HENDERSON, 508 Humboldt Bank Bldg., San Francisco, Calif., Attorney for Executor.

First publication in Times-Gazette July 10, 1926; July 17; July 24; July 31; last publication August 7, 1926.

LEGAL

NOTICE OF HEARING REPORT OF VIEWERS AND DECISION OF RAILROAD COMMISSION

NOTICE IS HEREBY GIVEN that the Board of Supervisors of the County of San Mateo, State of California, did by resolution and order duly made and passed on the 6th day of July, 1926, fix Monday, the 2nd day of August, 1926, at its chambers in the Court House at Redwood City, San Mateo County, California, at the hour of ten o'clock A. M. as the time and place for the hearing of the report of the Board of Viewers and the decision of the Railroad Commission in the matter of the petition of F. K. TOWNE, et al, requesting said Board of Supervisors to establish, alter, lay out and construct a public road in said County of San Mateo, commencing at the northely terminus of what is commonly known as Willow Road in said county and to be an extension of said Willow Road and to traverse and be upon the following described property to-wit:

BEGINNING at a point on the northerly line of the right of way of the Southern Pacific Railway Company Dumbarton Cut-off, said point being distant South 89 degrees, 08 minutes, 45 seconds West, 746.85 feet (along the northeasterly line of the Pulgas Rancho) and South 53 degrees 23 minutes West 585.24 feet, from a 4x4 stake marked P M C "12";

Running thence from said point of beginning South 39 degrees 47 minutes, 15 seconds West 79.32 feet; thence South 22 degrees, 23 minutes, 45 seconds West, 161.93 feet to the intersection of the easterly line of Willow Road and the Southerly line of the right of way of the Southern Pacific Railway Company Dumbarton Cut-off; thence along said southerly right of way line South 84 degrees, 58 minutes, 15 seconds West 67.41 feet to the westerly line of Willow Road; thence north 22 degrees, 23 minutes, 45 seconds East, 225.33 feet to the northerly line of the right of way of the Southern Pacific Railway Company Dumbarton Cut-off; thence along said northerly right of way line North 84 degrees, 58 minutes, 15 seconds East, 94.13 feet to the point of beginning.

Containing 0.344 acres, and being a portion of the Pulgas Rancho.

Said petition prays that said road be of the same width as Willow Road, namely about seventy feet (70 feet), and is to have a grade crossing across the tracks of the Southern Pacific Railroad Company at a point where the land hereinabove described crosses said railroad tracks and is to run from the northerly terminus of the present Willow Road to the northerly line of the Southern Pacific Railroad Company Dumbarton Cut-off right of way;

That the name of the owner of the lands over which said proposed road is to run is Central Pacific Railrod Company, a corporation;

NOTICE IS FURTHER GIVEN that all non-consenting land owners, if any, may appear at the time and place fixed for the hearing of said report of viewers and decision of said Railroad Commission and show cause, if any they have, why said decision and said report should not be adopted and why said road should not be constructed.

Board of Supervisors, County of San Mateo, State of California.

By ELIZABETH M. KNEESE,
County Clerk, and ex-officio Clerk of said Board.

First publication in Times-Gazette July 10, 1926; July 17; and last publication, July 24, 1926.

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE CITY AND COUNTY OF SAN FRANCISCO.

In the Matter of the Guardianship of the Person and Estate of MARY M. CAULFIELD, a Minor.
No. 9483 Dept No. 10

NOTICE OF SALE OF REAL ESTATE

Notice is hereby given that the undersigned, Mary Caulfield, guardian of the person and estate of Mary M. Caulfield, a minor, will sell at private sale, on or after Tuesday, the 27th day of July, 1926, in one parcel to the highest bidder, upon the terms and conditions hereinafter mentioned and subject to confirmation by said Superior Court, the undivided one-half interest and estate of said Mary M. Caulfield, a minor, in and to the real property hereinafter described, and all the right, title and interest that said minor has by operation of the law or otherwise acquired in and to those lots, pieces, or pacels of land, situate, lying and being in the County of San Mateo, State of California, and described as follows, to-wit:

Lots Nos. 5 and 6 in Block No. 15 as shown on that certain map entitled "Map No. 2 Vista Grange" filed in the office of the County Recorder of San Mateo County February 4, 1907, in Book "C" of Original Maps at page 14 and copied into Book 4 of Maps at page 52.

Terms and Conditions of sale: Cash, in Gold Coin of the United States; ten per cent. (10%) of the purchase price to be paid at the time of the sale; balance on confirmation of sale. Deeds and abstract at the expense of purchaser. Taxes will be pro rated as of date of sale.

All bids or offers must be made in writing, and may be left at the office of Jas. P. Sweeney, attorney for Mary Caulfield, guardian of the person and estate of Mary M. Caulfield, a minor, at room 1201 Nevada Bank Building, Number 14, Montgomery Street, San Francisco, California, or delivered to said guardian at No. 84 Twenty-ninth Street, San Francisco, California, or filed in the office of the Clerk of said Court in the City Hall in said City and County of San Francisco, at any time after the first publication of this notice and before the date of the sale.

Dated: July 8, 1926.

MARY CAULFIELD,
Guardian of the Person and Estate of Mary M. Caulfield, a minor.

JAS. P. SWEENEY, Attorney for said Guardian, 1201 Nevada Bank Building, San Francisco, Calif.

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

In the Matter of the Application of T. E. Roe for an order permitting Him to Lease Community Real Property.

No. 12143

ORDER TO SHOW CAUSE WHY LEASE SHOULD NOT BE MADE

IT IS ORDERED by the Court that all persons interested in the above entitled matter, to-wit: the application of T. E. Roe for an Order permitting him to lease community real property, do appear before the Superior Court of the State of California, in and for the County of San Mateo, at the Court-house in said County, on the 29th day of July, 1926, at 10 o'clock A. M. then and there to show cause, if any they have, why the real estate described below should not be leased by said T. E. Roe for the period of ten (10) years, and take as a rental therefor annually, one-third (1-3) of the net proceeds realized annually from the operation and use of said premises, and upon the terms and conditions mentioned in the Petition of said T. E. Roe filed herein on July 8th, 1926, to which reference is hereby made for further particulars.

IT IS FURTHER ORDERED that a copy of this Order be published at least two (2) successive weeks in a newspaper of general circulation published in said County of San Mateo, State of California.

Said real estate is situate in said County of San Mateo, State of California, and is described as follows, to-wit:

"Bounded on the East by the County Road leading from San Gregorio to Pescadero, on the West by the Pacific Ocean, on the South by the lands of John Caughey, and on the North by the San Gregorio Creek and the lands of N. Driver—containing about 367 acres of land."

DATED: July 8th, 1926.

JNO. L. HUDNER,
Judge of said Superior Court.
(ENDORSED) Filed, July 8, 1926.
ELIZABETH M. KNEESE,
Clerk.
